Caretray™ Trolleys - Single & Double Column

CTM2/08/4S3D

CTM1/08/3S1D

Features

- Single & double column easy clean procedure trolleys
- Designed for quick & easy complete disassembly when conducting thorough or deep cleaning programmes (including steam cleaning)
- Fully welded mild steel frame that is blast finished & powder coated in a durable epoxy paint (requires no on-site assembly)
- One piece moulded top with raised edges on three sides and integral rim at the front to contain any spillages (max load 30kg)
- One piece moulded side panels incorporate runners with positive stops, preventing trays from being accidentally withdrawn
- Carerails fitted to each side of the trolley to support a wide range of accessories (see options)
- 100/150mm deep translucent high impact plastic trays feature an integral handle with plastic clip on label cover, (max load per tray 5kg)
- Each trolley is supplied with perforated coloured label strips (white, blue, green, yellow & red)
- Trays can be subdivided in both length & width using simple slot in dividers (each tray supplied with 2 x long & 2 x short dividers)
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building; smooth surfaces assist cleaning
- 100mm pressed steel castors, 2 off braking

Dimensions

- Plastic Top
  - Single Column - 455 x 455 (internal) at height 782/968mm
  - Double Column - 915 x 455 (internal) at height 782/968mm
- Trays
  - Shallow - 355 x 405 x 100mm (internal)
  - Deep - 355 x 405 x 150mm (internal)

Standard Colours

- Paint - Spearmint

Auditable Access Control for Medicines Management

What Is Cliq™ Remote?

ABLOY® CLIQ™ REMOTE is the very latest in user-friendly, web-based security management. Part of the ABLOY® PROTEC CLIQ™ range, CLIQ™ REMOTE is designed for remote sites, enabling the commissioning, programming and full administration of security management centrally via web-based software.

How Does It Work?

ABLOY® CLIQ™ REMOTE integrates electronics into mechanical cylinders and keys, providing a security solution that can be managed remotely. In short, this works like an electronic handshake: when the key is inserted it engages with the cylinder, sending a random number back to the key. The key replies with an encrypted response which is decrypted by the cylinder and if valid the cylinder then allows access. It is important to remember that the mechanical combination must match as well as the digital combination. ABLOY® CLIQ™ REMOTE allows a single key to be used with multiple cabinets or trolleys.

System Features

- Secure - Provides dual security through the patented ABLOY® PROTEC mechanical disc cylinders and keys along with DES encryption, a recognised electronic standard
- Easily Programmable - Keys can be added quickly and programmed to specific time and date schedules
- Fully Auditable- Audit trails can be accessed from both the cylinder and key
- Reduces Keys - One key can be programmed to open multiple cabinets or trolleys
- Easily Accessible - The CLIQ™ environment works in a cloud hosted server farm, maintained and supported by Abloy allowing remote user access via a secure connection from anywhere in the world
- Cost Effective - Low installation & maintenance costs along with a long lifecycle (requires no wires or system updates, power for the cylinder is provided by the key)
- Easily Retrofitable - CLIQ™ cylinders are designed to fit into Euro Profile mechanical lock cases

System Benefits

- One key can be programmed to open multiple cabinets or trolleys
- The key is made personal to that member of staff, resulting in increased ownership and a reduction in the number of keys lost
- Easy to apply remote management, saves money and has the ability to cover several hospitals
- Time and date based access rights, with a full audit trail allow for full visibility of when visits were made
- New keys can be added to the system quickly and easily, removal of lost ones is hassle-free
- Reduction in time spent looking for keys

Process Flow

Start of Shift

Nurse/member of staff places their key into the Wall PD to gain validation for their shift. If key transactions are present from the previous shift they will be automatically downloaded from the key and stored in the audit trail archive (server) prior to new authorisations being uploaded*

During Shift

The key will only open cabinets where access permissions have been granted. Each time the key is used in a cabinet fitted with an ABLOY® PROTEC cylinder an audit trail is created on both the key and cylinder

End of Shift

Key is placed into the Wall PD. Previous key transactions are automatically downloaded from the key and stored in the audit trail archive (server)*

In the event that the key is not placed into the Wall PD at the end of the shift, the audit trail is downloaded the next time the key is presented to the Wall PD. In the event that a key is lost, the lock cylinder can be interrogated by a programming key (the cylinder stores an audit trail of the last 1,000 key insertions)

System Components

ABLOY® PROTEC CLIQ™ Key

- Provides dual security through the patented ABLOY® PROTEC mechanical disc cylinders and keys along with DES encryption, a recognised electronic standard
- Thin, light but incredibly strong key

ABLOY® PROTEC CLIQ™ Lock Barrel

- A bump proof mechanism
- Exceptionally smooth key entry and operation
- Can be master keyed and keyed alike with cylinders, cam and furniture locks as well as padlocks

Wall Programming Device

- Updates keys remotely (linking the server and users keys)
- Offers high level data encryption
- Allows the use of recurring validation, forcing users to validate their keys at the start of their shift whilst automatically downloading audit trails which are relayed to the server

Key Management (Traka)

- Allows integration of a key safe into the CLIQ™ system to control the issuing of keys
- Unprogrammed keys are accessed using existing (or new) security cards or pin number technology
- Reports on key activity are easily accessible from the system

Questions & Answers

Q Is the system expensive to install?
A The system has a low installation & maintenance cost along with a long life cycle. CLIQ™ cylinders are designed to fit into Euro Profile mechanical lock cases. No wiring is required to the cabinet. The wall programming device requires an Ethernet connection and power through a 12-24V adapter or alternatively power over Ethernet

Q Who maintains the system?
A System maintenance is normally assigned to a member of the hospital staff who will be responsible for programming/issuing of keys along with interrogation of audit trails

Q Is it possible to access the system remotely?
A The CLIQ environment works in a cloud hosted server farm, maintained and supported by Abloy. Access from anywhere in the world is possible utilising secure encryption via the internet. Allowing users to remotely provide access rights and retrieve audits on the fly

Q How long do the batteries last?
A The battery is located in the key, not the cylinder. Under normal usage a battery will operate up to 20,000 cycles or 2 years

Q What happens if a key is lost?
A In the event that a key is lost this can be quickly removed from the system, if subsequently found this can be added back and re-issued. In the event that an audit trail is required for a lost key, lock cylinders can be interrogated using a programming key (each cylinder stores an audit trail of the last 1,000 key insertions)

Q How can I better control the issuing of keys?
A Through the use of ABLOY® Traka (key safe) keys can be automatically assigned to specific users. Keys are issued using either the staff members own security card or via pin number technology.

Drug & Medicine Cupboards - Single Door , 870mm High

MC/R/870/3S2D/MPL

MC/R/870/FS

MC/L/870/3S2D

BS 2881:1989 BS 3621

Compatible with ABLOY PROTEC CLIQ

Features

- Independently tested to BS2881: 1989 (Security Level One) Specification for Cupboards for the Storage of Medicines in Health Care Premises
- BS3621 anti-pick & drill, key retaining five pin cylinder lock (supplied with 3 keys)
- Available with either...
  - Plastic Trays
  - Shelves
- Key profile unique to Hospital Metalcraft Ltd, offering 250,000 differs
- Compatible with ABLOY® CLIQ™ Remote, integrating electronics into high security mechanical disc cylinders & keys, combining electronic security & remote management in real time
- Worksurface (removable to assist with positioning under existing worktops)
- 0.9mm (20 Gauge) mild steel welded construction
- Modular design allows for easy interchange with HTM 63 storage systems

Plastic Trays

- Interchangeable with our popular CT range (post 2016)
- 3 x 100mm, 2 x 150mm trays supplied per cupboard
- Translucent high impact plastic trays feature an integral handle with plastic clip on label cover, (max load per tray 5kg)
- Each cupboard is supplied with perforated coloured label strips (white, blue, green, yellow & red)
- Trays can be subdivided in both length & width using simple slot in dividers (each tray supplied with 2 x long & 2 x short dividers)

Shelves

- 3 x flat shelves supplied per cupboard
- Adjustable at 50mm increments
- Capacity to hold 6 x MDS frames (if required)

Options

- SL - Suited Locks
- MPL - Mechanical Push Button Lock
- MC/JK/870 - Joining Kit & Full Width Worktop (required when connecting cupboards)

Overall Dimensions (w x d x h)

Cupboard
- 500 x 536 x 870mm

Trays
- Shallow Tray - 355 x 405 x 100mm (internal)
- Deep Tray - 355 x 405 x 150mm (internal)

CE EMC TESTED

EC1210/VBB/E02/E05

Examination & Treatment Couch - Two Section

Features

- Safe working load & lifting capacity (from minimum height) of 225kg
- Adjustable angle backrest
  - Manual -25 to +90 degrees
  - Electric -22 to +90 degrees
- Anti-trap gas strut fitted with a release lever used on the backrest section (optional electric)
- Choice of electric or hydraulic height adjustment
- Height adjustment from 490-950mm
- Retractable castors fitted to both ends to assist with movement & positioning
- Fitted with one adjustable foot fitted to allow levelling on uneven floors
- Clearance beneath frame allows access for mobile hoists
- Electric models (230V ~, 50/60H) fitted with a UK 3 pin plug & available with either a hand or foot switch
- Hydraulic models use a foot pump pedal positioned on both sides of the couch
- Seamless & contoured upholstery using flame retardant & anti-bacterial vinyl
- Frames prepared to accept optional accessories

Mobile Infusion Stands - Heavy Duty, Easy Clean

Features

- Range of stands designed specifically to hold blood warmers/pumps & syringe drivers
- Fully welded heavy duty five leg base with low centre of gravity to assist stability
- 50mm diameter scratch resistant stainless steel upright & 25mm diameter pump support bows
- A seamless polyurethane over moulding encases the base providing:
  - A flexible tear & water resistant finish
  - Impact protection to the fabric of the building
  - A shield for the twin wheel castors
  - Smooth edges & contours, allowing for easy & effective cleaning (including steam cleaning)
- Height adjustable upright using a heavy duty handwheel (1300 - 2000mm)
- Available with four/six U shaped hooks
- Maximum recommended load:
  - Hooks - 4kg per stand plus
  - Fixed Upright/s - 4kg per stand
- 75mm polypropylene/thermoplastic rubber heavy duty twin wheel castors (1 x anti-static)

Overall Dimensions (w x d x h)

- 620 x 620 x 1300-2100mm

Standard Colours

- Base - Grey/Blue/Green/Red/Yellow
- Upright - Stainless Steel

Options

- EIS905 - Cylinder Clamp (pair)

Portering Chair - Rear Steer, Nesting, Sliding Foot Rest

G/200/RS/VBB

Features

- Nests to occupy reduced floor space and encourage tidy storage
- Seamless & contoured upholstery using flame retardant antimicrobial vinyl
- Moulded drop down arm rests allows side access for patients and helpers
- Sliding rubber foot rest aids access as well as supporting feet during transit
- Design ensures chair will not tip should patient stand on the step
- X-ray/notes pocket on rear of seat
- Two hooks for patients belongings
- Fittings to accept IV poles/cylinder holders mounted to rear uprights
- 200mm fixed wheels/150mm total stop braking castors (cushioned)
- Maximum load 190kg

Dimensions (w x d x h)

- Overall Dimensions - 660 x 840 x 1040mm
- Seat - 540 x 420mm at Height 530mm
- Back - 490 x 455mm

X-ray/notes pocket

Standard Colours

- Paint - Grey
- Upholstery - Bristol Blue

Options

- CYHP/D1 - Cylinder Holder, CD/D
- CYHP/E1 - Cylinder Holder, E
- G/CLS - Calf/Leg Supports (pair)
- G/DP - Infusion Pole
- G/SB - Lap Seatbelt
- G/CARD/LOCK - Card/Coin Lock, Factory Fitted
- G/CARD/STATION - Head of Station
- 2LOKE011 - Release Card

Chairs internest. Shown with optional coin locks
