- + **Process security and repeat orders.** The patented Multi Colour manufacturing process guarantees the exact colour and shape throughout the production process and for repeat orders, and that of the replacement ink cartridge.

- + **Variety of colour.** Include any of the 15 available colours for your impression design.

THE WAY IT WORKS

TAILORMADE

Individual colour and design requirements are a Multi Colour Impression specialty.

The text and logo fields can be arranged as required.

The resulting fields in the ink cartridge are then inked automatically with the selected colours.

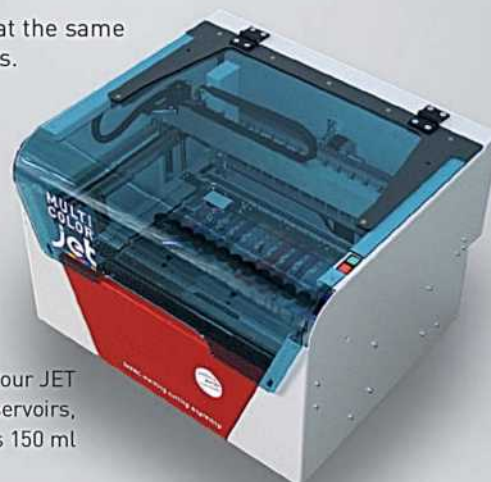

PRECISION

The laser cuts the ink cartridge with precision and seals the colour fields at the same time. This prevents the contamination of each of the individual colour fields.

QUALITY

The Multi Colour Jet inks each of the individual colour fields with the optimum amount of ink. The result is a set of clean impressions to the usual level of quality.*

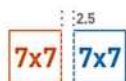

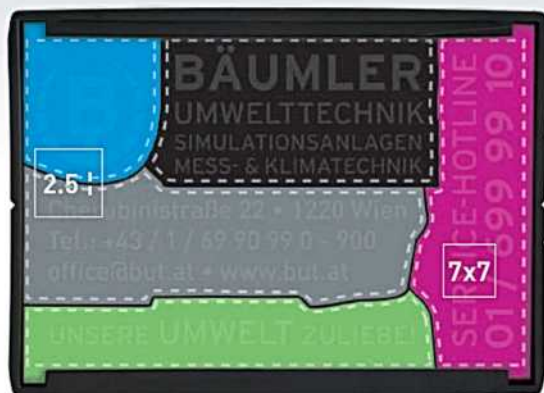

*Cartridges can also be inked manually.

MULTI Colour JET
15 colour reservoirs,
each contains 150 ml

MULTI COLOUR TECHNOLOGY

MULTI COLOUR INK CARTRIDGE

- › Minimum distance between colour fields is 2.5 mm
- › Minimum size of the colour field is 7 x 7 mm
- › Gradients or blended colours are not possible

MORE POSSIBILITIES. MORE COLOUR. MORE SUCCESS.

With Multi Colour Impression, endless stamp designs are possible.

Enhance the impression's appearance by choosing one or more colours from the wide Multi Colour spectrum instead of the standard black pad.

ECLIPSE RUBBER STAMPS AND DIE PLATE DATERS

Eclipse Rubber and Die Plate Dater stamps are made using traditional rubber which allows for a clear, crisp imprint. They are customised to your specification and require a separate ink pad. Eclipse rubber stamps are manufactured with durable plastic which makes them hardwearing and perfect for prolonged use.

Die Plate Dater stamps combine a changeable date with your logo/text. The date is central in each stamp making it clearly noticeable and a focal point of your design. Standard stamp pad colours are available in: black, blue, green, red or violet.

The stamps from the Printy range are available as pre-set text stamps that are ideal for office use. They feature words or phrases commonly used on office paperwork such as invoices, delivery notes, purchase orders and many more. These stamps will help save time on daily tasks and streamline workflows. Also available within the Printy range are date stamps which feature easily adjustable date bands with 12 consecutive years and a day-month-year format.

The pre-set text stamps' images are available in two different formats, one format features a word often used in office work and the other displays a word alongside the date which is easily adjusted. Being part of the Printy range, these stamps have the same advantages as other Printy stamps such as being small and lightweight, self-inking, climate neutral and featuring a clean ink cartridge change.

LABEL CLOTHES

& TEXTILES FAST AND EFFICIENTLY

Clothing markers are the ideal essential for anyone who needs to label clothes or other textiles for schools, nursing homes, hospitals, hotels or even the military. Names of patients, pupils, hospital wards, hotels or any other label can easily be stamped onto the fabric which allows easy identification and allocation of the clothing item to the right place.

The stamps are non-toxic, easy to use and last through washes of up to 90°C. Both stamps come with a strip of non-woven fabric that can be stamped and ironed onto dark fabrics on which the stamps wouldn't show otherwise.

Both stamps are part of Printy range and feature the range's benefits, including being small and lightweight as well as climate-neutral.
