

CHALLENGING ENVIRONMENT CATALOGUE

Extreme seating

Ref. MacIntyre

Fabric
choice

- Available as a chair or two seater settee
- Comfortable and domestic appearance
- No requirement for "plumping" up of cushions at day end due to them being an integral part of the overall upholstery - cushions cannot be detached, thrown or removed in any way
- Extremely strong boarded out frame including underside
- Double stitched one piece seams will not allow for insertion and secretion of contraband
- Extremely heavy - the chair weighing 75kg and two seater settee 110kg so not easily lifted or moved
- They are not piped, fitted with buttons and all stapling is internal to reduce opportunities to harm self or others
- Backs are low to assist staff during observation
- An effective long term solution for challenging environments

Boarded backs

Security screws

Hardwood skis

Items cannot be
concealed within

Cushions have that homely
appearance of being detachable
but are totally fixed in position

Outer frame and cushion contrast

Choice of two models -

Manufactured by
us here in the UK

Standard cushions i.e. foam seat cushion and fibre back cushion or
fixed cushions

- Both models available as a chair or two seater settee
- Comfortable and domestic appearance
- Extremely strong boarded out frame including underside
- Double stitched one piece seams will not allow for insertion and
secretion of contraband
- Extremely heavy – the chair weighing 75kg and two seater settee
110kg so not easily lifted or moved
- They are not piped, fitted with buttons and all stapling is internal
to reduce opportunities to harm self or others
- Backs are low on both models to assist staff during observation
- Zips (where applicable) are reversed with tongues removed
- Proven product with over 15 years unbroken service

Extreme seating

Ref. Florence HD

Fabric
choice

Florence HD
Safe, Strong & Stylish

Rounded arm fronts for safety

Rounded and supportive wings

The Florence HD for all intents and purposes, has the appearance of a “normal” lounge chair - it’s only when you know a little more about it that you can see the benefits some of its features bring:

- Unlike many heavy duty chairs of this nature, the hardwood legs are an integral part of the frame. In a nutshell this means that they cannot be removed and used to harm self or others - a major safety issue
- The upholstery itself is double stitched throughout and there are no areas for concealment of contraband
- There are gently sloping “wings” which flow down to arms with rounded fronts for occupant comfort and safety
- Interior foam including the removable seat cushion - reversed zip with tongue removed, are high quality for user comfort and support
- Heavy grade plywood is used for boarding all surfaces (including the underside) for strength and longevity
- If a word of warning was needed about this chair it is that it is extremely heavy and cannot be easily moved so please be aware of this fact when ordering

Extreme seating

Ref. Bennett

Fabric
choice

Seats and backs are totally supported by box section steel tubing connected to the arms by substantial security fixings

There are hygiene gaps round the entire seat and back for quick, easy cleaning. The gaps are big enough for staff to visually check for secretion of contraband

Developed with front line mental health care professionals this functional chair, two seater and three seater sofa have been specifically designed for use in challenging environments situations.

- Easy to clean - due to the clever construction there are hygiene gaps around the seat and back. In addition all upper surfaces are sloped so liquid doesn't remain or become stagnant.
- Safety - arm fronts are rounded with arm tops being sloped to deter people from placing drinks on them. Backs are rounded for protection against self harm.
- Comfort - the seating position itself slopes backwards and the back is high enough for support but does not obstruct observation by staff.
- Upholstery - all seams are double stitched, there is no piping and staples are concealed. All upholstery is designed to reduce the possibility of contraband being secreted within or adjacent to it. We would advise a dark coloured vinyl (to deter people from abusing it with ball points etc.) - there are some great colours available and it is the quickest and easiest covering by far to clean.

	Chair	2 Seater Sofa	3 Seater Sofa

Calm seating

Ref. Austin Collection

- Designed to meet the guidelines on Management of Aggression & Violence
- These products allow staff to restrain very disturbed patients
- Fully boxed-in frame with concealed staples, constructed from extremely strong solid plywood and birch hardwood framing with dowelled and glued joints
- They do not include materials which could be used to harm self or others
- No areas for concealment and their robust construction minimises damage from abuse
- Available as a three "seater" bench or individual units (width 510mm - 20") and with a choice of two back heights

Seclusion room seating

Ref. Madley Chair

- Heavy but soft is the order of the day with this model
- Constructed from one piece of good quality, supportive foam
- Vinyl base and zipped outer cover (with zip tongue removed for safety)
- Comfortable and practical product with no areas for concealment
- Please note that any of our stretch polyester fabrics are suitable for this model

Bean Bag

Settee - seats up to three with ease

Round Pouffe

Soft Table

Square Pouffe

Soft, safe Seating

Ref. Sidcup collection

Fabric
choice

Soft and safe - equally at home as pouffes, leg or back supports

Safety has to be the key word in the design of these increasingly popular products

- These are soft products specifically selected to go in areas where traditional furniture may be used to harm self or others
- With the exception of the soft table (which has a foam inner) all, these products are filled with polystyrene beads that are contained within a separate and sealed fabric inner cover
- The outer cover can be supplied in our entire and extensive fabric range so you can choose the right mix for your environment
- The seating is comfortable and supportive, easy to move to different locations due to its light weight and a viable safe alternative to wooden or metal products

Antimicrobial side chairs and arm chairs

Ref. Manby

- Designed to conform with British ergonomic standards, to provide proper lumbar support, a supported leg position and flat foot position
- Wide bases and anti-tilt legs provide stability helping reduce the risk of falls, especially for users with limited mobility
- An antimicrobial silver additive runs throughout the chairs to their core and they are certified to kill 99.9% of MRSA and E. Coli on contact and prevent fungus growing on their surfaces
- Manufactured from non-porous ultra-durable one piece design polypropylene which is quick and easy to clean
- Solid construction eliminates hard to clean internal cavities, crevasses and tight corners that collect dirt and harbour bacteria.
- Easy to clean - chlorine based cleaners can be used without deteriorating the material or surface making the removal of dirt and bacteria a priority
- A 10 year manufacturer's warranty offers long term maintenance benefits
- Available with or without arms and in three colours.
- Minimum order of 10, one type and colour

Heavy, strong, steel dining table

Ref. Canvey

Illustrated with our Marlow chair

- First appearances can be deceptive as is very clearly illustrated with the Canvey dining table
- With the appearance of a table you would see the many a restaurant or cafe bar this is immensely heavy as it is principally two steel disks mig welded to a central steel column
- The disk on the underside of the top caters for security screw fixing and is there to deter anyone trying to kick the table top off
- The top itself is scratch resistant laminate with an MDF core having a smooth, bull nosed edge
- Even though the base has an epoxy resin powder coated finish, it should be noted that over the passage of time this will become scratched/chipped by the users' footwear. If this becomes an issue, periodic spraying with an acrylic paint will bring the Canvey back to its visual best
- For quantities of 10 or more other base frame colours are available - please contact our Sales Department for further details

"I would like to write and thank you and your organisation for your excellent quality of service and product. Our specialist needs necessitate heavy duty, strong furniture that will not only perform well but last through often heavy usage."
Care Services Manager

Additional table styles are available - please see our [Indistruct Living Room collection](#)

- Scratch resistant polycarbonate panels are used in all viewing products
- All units are recessed at the back to allow them to be cut out around the skirting board to let the unit be wall fixed without any gaps or concealment holes

Indi-struct & Indi-struct HIGH DEPENDENCY residential furniture

Three fabulous finishes - sample blocks are available on request from our sales department

Manufactured
in the UK

- Two Indi-struct ranges have been specifically designed to offer you complete furniture solutions dependent on severity for all different aspects of challenging behaviour environments
- Developed with both clients and experts across a wide spectrum of the care and secure sectors helping to create furniture designs that will assist with the support of their varied residents' needs
- This durable furniture maintains a warm, homely look offering excellent quality and value for money in the living room or bedroom
- It has been tested and maintains certificates for Strength and Stability to BS4875 Parts 7 & 8 (2006) Test Level 5 – severe contract furniture.
- Within our Indi-struct collection offers everything from beds, bedroom cabinets, lounge/living units with secure TV cabinets to high dependency secure furniture solutions. However, if you have any special requirements that you feel will need extra attention then let us know and we can discuss various bespoke design options

Locks can be fitted to drawer fronts if required. Locks can be keyed alike, keyed to differ or keyed to differ with master key option

All units are delivered fully assembled to the kerb side, ground floor however product placement is available but this is extra as two delivery people will be involved rather than one driver. If this service is required please ask us to quote and state it on your order as failure to do so cannot be rectified on delivery.

Please note that delivery is to kerb side, ground floor and is carriage paid over £550 (small order charge of £40 for orders below that level) excluding postcodes IV, KW, PH, AB, FK, DD, KY, G, LL, SY, LD, SA, PE, NR, IP, CO, TA, EX, TQ, PL, TR and all offshore isles where we will be happy to quote on request.

The drawer system is by far the strongest drawer available on the market. The drawer box and base are made from 18mm thick melamine faced MDF which is then mounted on extremely heavy duty steel roller runners rated to 100kg. Drawers are fixed so they cannot be removed without the aid of security tooling

Optional sloping top doors available. Retro fitting sloping tops are available for the wardrobes to discourage climbing

Bedroom units have cut out handles as standard. Living room units are fitted with the finger pull design handle which is secured using anti-tamper fixings. All units are made from 25mm thick melamine faced MDF with soft rounded corners and smooth profiled edges

Heavy duty strip hinges open the door to 270 degrees greatly increasing the resistance to abuse. Wardrobes are without hanging rails to try to reduce obvious ligature points. A fluted shelf allows the hanger to sit on it

Please note that delivery is to kerb side, ground floor and is carriage paid over £550 (small order charge of £40 for orders below that level) excluding postcodes IV, KW, PH, AB, FK, DD, KY, G, LL, SY, LD, SA, PE, NR, IP, CO, TA, EX, TQ, PL, TR and all offshore isles where we will be happy to quote on request.

Indi-struct living room collection

- Designed to meet demands of the most challenging behaviour and encourage a safe, supportive environment
- Various options available include sideboards, weighted tables and display units with polycarbonate viewing panels, making it is easy to find the right items to create a homely environment necessary for the wellbeing and rehabilitation needs of those in care
- All units in the living room collection are lockable as standard

- Tested to BS 4875-7:2006 Test Level 5- structurally suitable and stable for severe contract situations
- 18mm easy clean melamine faced MDF carcass, 25mm easy clean melamine faced MDF tops with soft rounded corners and smooth profiled edges plus 18mm thick solid fixed backs to all units
- Heavy duty Indi-struct drawer system with an 18mm MDF drawer box with heavy steel roller runners for strength and durability. Drawers are fixed so they cannot be removed without security tools
- Security screws used throughout as standard, shelves are fixed and scratch resistant polycarbonate panels are used in all viewing products
- All units are recessed at the back to allow them to be cut out around the skirting board to let the unit be wall fixed without any gaps or concealment holes

All units are delivered fully assembled to the kerb side, ground floor however product placement is available but this is extra as two delivery people will be involved rather than one driver. Indi-struct bedroom collection

With a view to reducing climbing, there is the option of sloping top that can be retro fitted even after the robe has been installed and wall fixed

- The collection will meet the demands of most challenging environments, while its design, and finish will help you to create the homely feel that is so important for a residents care and rehabilitation
- The variety of unit options available will allow you to maximise storage facilities without overcrowding the room. The extremely heavy duty strip hinges allow the doors to open 270 degrees
- All units have scooped out handles as standard and wherever possible all corners and edges have been rounded and smoothed off to reduce obvious risks of injury
- All units have 18mm thick solid backs which allow them to be wall secured easily without the need for extra brackets or ties

- Tested to BS 4875-7:2006 Test Level 5- structurally suitable and stable for severe contract situations
- 18mm easy clean melamine faced MDF carcass, 25mm easy clean melamine faced MDF tops with soft rounded corners and smooth profiled edges plus 18mm thick solid fixed backs to all units
- Heavy duty Indi-struct drawer system with an 18mm MDF drawer box with heavy steel roller runners for extreme strength and durability. Drawers are fixed so they cannot be removed without security tools

Simply add the colour code you require to the end of the product code

Locks

Locks can be fitted to drawer fronts if required. Locks can be keyed alike, keyed to differ or keyed to differ with master key option

INDI-KEY1 Fitted lock keyed alike
INDI-KEY2 Fitted lock keyed to differ
INDI-KEY3 Fitted lock keyed to differ with master key option

Drawers

Drawers are fixed so they cannot be removed without security tools

All units are delivered fully assembled to the kerb side, ground floor however product placement is available but this is extra as two delivery people will be involved rather than one driver. If this service is required please ask us to quote and state it on your order as failure to do so cannot be rectified on delivery.

Please note that delivery is to kerb side, ground floor and is carriage paid over £550 (small order charge of £40 for orders below that level) excluding postcodes IV, KW, PH, AB, FK, DD, KY, G, LL, SY, LD, SA, PE, NR, IP, CO, TA, EX, TQ, PL, TR and all offshore isles where we will be happy to quote on request.

Indi-struct box bed
(supplied in two sections
to ease installation)

Wall mounted bookcase

Indi-struct box beds

- 3' & 4' widths taking a standard 6'3" long mattress
- Manufactured from 18mm melamine faced MDF with internal reinforcing linings and smooth corners to head and foot boards
- A fully secured bottom panel to eliminates all potential concealment areas
- Delivered in two sections which are then easily fastened together to ease installation.

INDI-BEDSTEAD - 3' Box Bed

H:1950 x W:960 x D:500

INDI-BEDSTEAD4 - 4' Box Bed

H:1950 x W:1280 x D:500

Manufactured
in the UK

Indi-struct book case

- Our wall mounted book case features large smooth rounded corners and edges to help reduce possible ligature points

Indi-struct box bed with storage (supplied in two sections to ease installation)

Indi-struct mirrors
Radius corners and smooth polished edges with countersunk screw holes allowing flush fitting

Indi-struct box bed with storage Indi-struct safety mirrors

- 3' & 4' widths taking a standard 6'3" long mattress
- Manufactured from 18mm melamine faced MDF with internal reinforcing linings and smooth rounded corners to the head and foot boards
- Fitted with heavy duty piano hinges, to allow them to lift up for access to the large storage areas

INDI-BEDSTORE - 3' Box Bed With Storage
H:1950 x W:960 x D:500

INDI-BEDSTORE4 - 4' Box Bed With Storage
H:1950 x W:1280 x D:500

- Flat polycarbonate (approximately 200x stronger than glass) safety mirrors are virtually unbreakable
- Radius corners and smooth polished edges with countersunk screw holes allowing flush fitting
- Anti-tamper stainless steel fixings and two sided tape around perimeter to prevent finger insertion
- 3mm edge radius all round

Indi-struct HIGH DEPENDENCY

- When a more secure furniture solution is required, the High Dependency collection will allow you to create surroundings that are appropriate for an individual's safety needs without being restrictive
- The clean, simple design eliminates any concealment spaces and, because of this, makes lighter work when carrying out room inspections etc.

Sloping tops on some units to reduce climbing

Extremely strong construction

Hanging shelf has a fluted groove to allow the hanger to sit on

Soft rounded corners and smooth profiled edges throughout
