Common benefits...

Locking, hinge back arms

Simplicity itself to operate. A single button (with locking pin) releases the arm backwards, out of the way, for smooth, lateral transfer. When raised, the locking pin engages again in the frame.

Polyurethane "upholstery"

Hygienic, soft aperture covers combined with moulded seats and backs make cleaning and decontamination a very quick & easy process. No vinyl, no foam, no staples & no crevices.

Height adjustable, swinging and detachable footrests

Cater for users of differing statures. The foot plates have raised heel retainers.

Pan choice or with pans and racks removed, it can be used as both a sani-chair over a toilet or as a shower chair

Disposable pan with stainless steel rack (pans not supplied)

Yellow bedpan with stainless steel rack

Vector bedpan with stainless steel rack

Oval pan large with plastic rack

Large round pan with plastic rack

Pan selection...

So adaptable, we offer you the model most suited to your individual nursing requirements. Stainless steel pan racks cater for disposable pans and two models of bedpan, whilst round or oval polythene pans are available with plastic racks. In addition, with these removed, they can be used as sani-chairs over the toilet or as shower chairs.

- **Reduces cross infection**
- **Synthetic no rust frame**
- **Quick and easy to decontaminate**
- **Chemical resistant**
- **Hygienic polyurethane upholstery**
- **Designed for user and carer**

Don't forget, ALL these models can be used in the shower!"

Standard and Compact portering chairs fixed height

- Designed with infection control in mind, particularly when moving patients around the hospital, these “next generation” portering chairs can be easily stripped down in seconds and cleaned, using all leading brands of antibacterial products or steam without the need for tools
- Two models are offered - the Standard, being the larger of the two, is for movement around the hospital whilst the Compact is particularly suited to ward use where space is often at a premium
- Height adjustable swinging, detachable footrests included
- Locking hinge down arms cater for smooth transfer
- A positive rear wheel braking system is fitted to the Standard model whilst four, total lock brake castors are fitted to the Compact
- Both models can be supplied with IV pole and armpads (as extras), illustrated below
- Maximum user weight for both models 20st (130kg)

Can your portering chairs be ready for decontamination in just 20 seconds?

A shower chair and bidet

Disposable pan rack

Popular in hospitals - standard or bariatric models available (we do not supply the disposable pans).

Yellow bedpan rack

This rack takes our infection control Yellow bedpan. Standard or bariatric racks available. The Yellow bedpan may be purchased separately.

Plastic pan rack

Popular in nursing homes - for first time purchase, buy one rack and one polyethylene pan per commode. The same applies to the oval pan large shown below - initially just order one plastic pan rack and one oval pan large. Additional pans may be purchased.

Armpads

Manufactured from polyurethane, simply slides onto the front of all models of Stalham. Supplied in pairs - black.

Vector bedpan rack

This rack takes our Vector Bedpan with Lid. Standard or bariatric models available. Rack and bedpan may be purchased separately.

IV Pole

Four hook extending pole which can be fitted to all Stalham models except self-propelling and bariatric.

Decontamination tags

Very popular - just write on/wipe off. Supplied singly.

Safety belt with cushion

Leg belt or/and body belt - medium or large sizes

Colour choice Identification made easy...

Blue is the standard arm colour however grey, red or claret are also available for quantities of 20 or more of one colour.

Transfer belt

For back-saving support to patients when standing up or sitting down. The daily work of nursing staff is relieved effectively. Approved up to 20 stone (127 kg).
