We can custom make your bags

We work closely with our customers to understand their exact requirements so that we can provide the most suitable and cost effective solution to their needs. We manufacture all of our bags in our own factory in Europe which means that we do not impose large minimum order quantities or lengthy lead times. You may want to make a small adaptation to one of our standard bags, such as printing a company name or logo on the bag, or it might mean a completely new design.

Whichever of these applies to you, please contact us and we will be happy to create a fit for purpose Versapak bag.

"Niche Office Solutions Ltd were incredibly helpful and after we placed the order, we had our bags in no time. It's great to have the design bespoke to us - we really didn't want to have to use transport bags with "blood" written all over them!"

Lynda Coulter,
The Cheshire & North Wales
Human Milk Bank

We put customers first

It's clear to us that working closely with our customers to understand their needs as well as the needs of their customers and suppliers often allows us to provide a solution that's not immediately obvious. We are privileged to work on so many important projects and proud to deliver solutions so quickly and at a lower cost.

What some of our customers say about us:

"Wonderful service and very helpful staff"

"Our goods were delivered very quickly. Even though it was a particularly large order we were not kept waiting"

Visit www.nicheofficesolutions.co.uk to read about some of our biggest challenges.

DID YOU KNOW?

Our reusable bags and pouches can be used up to 2,000 times and will save you up to 90% versus single use envelopes and boxes. As well as saving money you can do your little bit for the environment as well by putting less waste in to the system.

For our zippered bags and carriers, we offer a range of our own tamper evident security seals.

The seals work with our tamper evident bags by closing the zip on the bag, placing the zip puller in position and inserting the seal into the locking mechanism. When someone lifts the zipper, the seal breaks which means that you can see immediately that the bag has been opened. Versapak security seals provide a simple, clear and effective way to monitor your sensitive and high-value items.

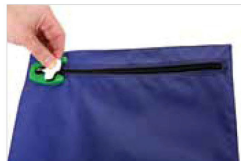

How to use seals with your bag:

Step 1:
Pull zip all the way across

Step 2:
Fold zipper back on itself and fit securely into the locking mechanism

Step 3:
Insert the seal into the zipper by pressing firmly with your thumb on the centre of the seal until it clicks into place

To Open:
Lift zip puller until seal breaks

T2 Seals

The premium seal has a unique patented design with an increased printable surface space to allow for easy scanning and readability of barcodes and numbers. It also has two prongs for added security. The T2 offers you the ultimate level of tamper evidence and traceability. It is available plain, numbered, personalised and barcoded in a choice of colours.

Plain T2 Seals

Our plain seals come in boxes of 500 seals with a minimum order quantity of 1,000 seals

Numbered T2 Seals

Our numbered seals are printed with a unique 6 digit number for added security. The numbered seals come in boxes of 500 seals with a minimum order quantity of 1,000 seals.

Barcoded T2 Seals

Our barcoded seals are printed with a barcode for track and trace purposes. They are designed to accommodate most barcode formats. The seals come in boxes of 500 seals with a minimum order quantity of 5,000 seals

Personalised T2 Seals

Our personalised seals are printed with your company name or details (up to six letters) plus a unique six digit number for added security. The seals come in boxes of 500 with a minimum order quantity of 5,000 seals.

Did you know? We have designed all our security seals so that when it is broken, the seal falls away from the locking mechanism and will not jam which prolongs the life of the bag.

T Seals

The two-pronged design makes them more secure than other plastic seals on the market. They are available plain, numbered, printed or barcoded, and in a variety of colours.

Plain T Seals

Our plain seals come in boxes of 500 seals with a minimum order quantity of 1,000 seals.

Numbered T Seals

Our numbered seals are printed with a unique 6 digit number for added security. The numbered seals come in boxes of 500 seals with a minimum order quantity of 1,000 seals.

Barcoded T Seals

Our barcoded seals are printed with a barcode for track and trace purposes. They are printed with an 8 digit 2 of 5 interleaved numeric barcode. The seals come in boxes of 500 seals with a minimum order quantity of 5,000 seals

Personalised T Seals

Our personalised seals are printed with your company name or details (up to six letters) plus a unique six digit number for added security. The seals come in boxes of 500 with a minimum order quantity of 5,000 seals.

Button Seals

The genuine Button seal is available in a range of colours, and can be overprinted with unique security numbers, company name, a logo or a 128 barcode.

Plain Button Seals

Our plain seals come in boxes of 500 seals with a minimum order quantity of 1,000 seals

Numbered Button Seals

Our numbered seals are printed with a unique 6 digit number for added security. The numbered seals come in boxes of 500 seals with a minimum order quantity of 1,000 seals.

Barcoded Button Seals

Our barcoded seals are printed with a barcode for track and trace purposes. They are designed to accommodate a 128 barcode. The seals come in boxes of 500 seals with a minimum order quantity of 5,000 seals

Personalised Button seals

Our personalised seals are printed with your company name or details (up to six letters) plus a unique six digit number for added security. The seals come in boxes of 500 with a minimum order quantity of 5,000 seals.

Arrow Seals

We designed the arrow seal for use with secure bags and pouches that have been fitted with the arrow style sealing system. Plain or numbered, the arrow seal is also available in a range of colours.

Plain Arrow Seals

Our plain seals come in boxes of 500 seals with a minimum order quantity of 1,000 seals

Numbered Arrow Seals

Our numbered seals are printed with a unique 6 digit number for added security. The numbered seals come in boxes of 500 seals with a minimum order quantity of 1,000 seals.

Flat Document Pouch (top opening)

Our document pouches are used to store confidential paperwork and to send documentation in the post or by courier. These pouches provide a cost effective alternative to traditional envelopes.

Dimensions (WxH)

Small (CVF1): 286 x 336mm (11¹/₄ x 13")

Medium (CVF2): 355 x 381mm (14 x 15")

Large (CVF3): 355 x 470mm (14 x 18¹/₂")

Document Pouch with Gusset

document pouches with a gusset are designed for sending, storing or transporting documents and bulkier items. They have a long edge zip on 3 sides for easy loading.

Dimensions (WxHxD)

Small (ZG1): 355 x 250 x 75mm (14 x 10 x 3")

Medium (ZG2): 406 x 305 x 75mm (16 x 12 x 3")

Large (ZG3): 457 x 355 x 75mm (18 x 14 x 3")

Extra large (ZG4): 457 x 355 x 125mm (18 x 14 x 5")

Single Seam Document Pouch

Our document pouches with a single seam make them ideal to carry heavier contents.

Dimensions (WxHxD)

Small (CG2): 380 x 355 x 75mm (15 x 13¹/₂ x 3")

Medium (CG3): 470 x 335 x 75mm (18¹/₂ x 13¹/₂ x 3")

Large (CG6): 510 x 406 x 75mm (20 x 16 x 3")

Internal Mail Pouch

The Internal Mail pouch is used to store and transport documents internally. Please note that it is not fitted with a tamper evident locking mechanism.

Dimensions (WxH)

Small (BLG0): 260 x 310mm

Medium (BLG1): 360 x 260mm

Large (BLG2): 410 x 310mm

Extra Large (BLG3): 480 x 350mm

Flat Document Pouch (side opening)

Our document pouches are used to store confidential paperwork and to send documentation in the post or by courier.

Dimensions (WxH)

Small (VCF2): 406 x 305mm

Medium (VCF3): 457 x 356mm

Large (VCF5): 508 x 406mm

Secure Holdall

The secure holdall is designed specifically to ensure sensitive files and high value items are transported in a tamper evident way. This versatile bag is made from high quality weather resistant material and is robust and burst proof.

Dimensions (WxHxD)

Small (CCBX4): 406 x 305 x 203mm (16 x 12 x 8")

Medium (CCBX2): 508 x 356 x 152mm (20 x 14 x 6")

Large (CCBX3): 584 x 406 x 254mm (23 x 16 x 10")

Courier Satchel

The courier satchel is manufactured from durable heavyweight PVC coated nylon material for long life. It has internal compartments with stiffened dividers for separation of contents with a Velcro fastened weather flap and adjustable strap. The flap has an external clear pocket for identification and internal A4 window for document storage.

Dimensions (WxHxD)

400 x 400 x 200mm (15³/₄ x 15³/₄ x 8")

Courier Box

Lockable courier box with folding lid.

Dimensions (WxHxD)

600 x 400 x 320mm

Courier Box Locking Seals

These locking seals are for sealing the courier box. Each pack contains 1,000 seals.

Secure Cash Bag

Our secure cash bags are used to transport and store cash and till receipts. They provide a cost-effective alternative to plastic bags.

Dimensions (WxHxD)

Small cash bags (CCB0): 152 x 178 x 50mm

Medium cash bags (CCB1): 267 x 267 x 50mm

Large cash bags (CCB4): 356 x 356 x 50mm

Mini Cash
Bags also
available

Cash in Transit Bag

The cash in transit bag is larger than our standard cash bag and has a reinforced wooden base and metal feet to carry a larger amount of notes and coins.

Dimensions (WxHxD)

Square (KTH0): 300 x 300 x 150mm

Rectangle (KTH1): 350 x 160 x 160mm

Secure ATM Cassette Carrier

The secure ATM cassette carrier is used to safely transport ATM cassettes. It is made from 300gsm polywide mesh and has a stiffened bottom to protect the cassette when it is put on the ground. Each carrier can hold 1 x NCR cassette but we can custom make the bag to suit your specific requirements.

Dimensions (WxHxD)

NCRCASSETTEBAG: 390 x 220 x 140mm

ATM Cassette Collection Bag

The ATM Cassette Collection Bag is used for the collection and transport of cash machine cassettes. Each bag is able to hold 4 to 5 cassettes up to a weight of 25kg.

Dimensions (WxHxD)

ATMCOLLECTION: 200 x 390 x 130mm

Chip and Pin Reader Storage

Designed to store and transport chip and pin machines and accompanying equipment, these protective carriers have a foam insert to provide the ultimate protection.

Dimensions (WxHxD)

320 x 295 x 130mm

Security Sacks

Security sacks are used to store very large amounts of cash or ATM cassettes. Please note that these sacks are fitted with a T-Bar closing mechanism and not the tamper evident locking device.

Dimensions (WxH)

Small (SK1437): 400 x 530mm

Large (SK1438): 520 x 870mm

Secure Till Drawer Cover

The secure till drawer cover enables the safe storage of till drawers and it has a zip which opens on 3 sides for ease of handling.

Dimensions (WxHxD)

400 x 329 x 75mm

Security Envelopes

As part of our range of tamper evident security products, we also supply disposable envelopes intended for single use. They come in packs of 500.

Dimensions

Size 1 Internal size (mm): 177 x 335 + 1 receipt

Size 2 Internal size (mm): 260 x 415 + 1 receipt

Cash in Transit Box

This industry standard cash in transit security box is designed to carry heavier and/or bulkier cash loads. Once cash is loaded into the box, the box is sealed using one of our uniquely numbered security seals or locks.

Dimensions (WxHxD)

External: 320 x 520 x 160mm

Internal: 300 x 410 x 150mm

Did you know? manufacture barcoded security seals which enable our customers to track and trace their cash and valuable items at all times. See page 4 and 5 for more information.

Manufactures tamper evident medical carriers for the healthcare industry. Our expertise has allowed us to supply bags to hundreds of hospitals around the UK and worldwide to transport blood products, pathology specimens and vaccines, to store confidential patients' records and carry delicate instruments.

Did you know - Category B biological substances assigned to UN3373 such as blood and urine samples to be tested, should be transported in accordance with Packing Instruction 650 (P650). At we manufacture and supply a range of specialist Diagnostic Specimen Carriers which are compliant with the regulations. You will find these bags below with a yellow triangle next to them.

Blood in Transit Bag

The blood in transit bag is designed to transport blood products and samples. It has built in impact protectors and internal padding and is fitted with Thinsulate Insulation which helps to maintain the temperature of the contents for up to 6 hours. Dimensions (WxHxD)

Small (BLD1_RDS):

External dimensions: 295 x 200 x 195mm
Internal dimensions: 250 x 150 x 135mm

Large (BLD2_RDS):

External dimensions: 410 x 250 x 240mm
Internal dimensions: 355 x 210 x 170mm

▶▶▶▶ We supply padded compartment dividers to segregate the contents of the bag. Please contact us for more information.

Pathology Bag

The pathology bag is designed to transport pathology samples to and from the laboratory. It has built in impact protectors and internal padding and is fitted with Thinsulate Insulation which helps to maintain the temperature of the contents for up to 6 hours. The standard colour is blue and it is available in 3 sizes.

Dimensions (WxHxD)

Small (PYTB1)

External dimensions: 305 x 305 x 170mm
Internal dimensions: 250 x 230 x 135mm

Medium (PYTB2)

External dimensions: 460 x 305 x 255mm
Internal dimensions: 415 x 230 x 215mm

Large (PYTB3)

External dimensions: 650 x 380 x 255mm
Internal dimensions: 590 x 315 x 225mm

Human Tissue Transport Bag

The human tissue transport bag is designed to transport human tissue and organs. It has built in impact protectors and internal padding and is fitted with Thinsulate Insulation which helps to maintain the temperature of the contents for up to 6 hours. The standard colour is white and it is available in 3 sizes.

Dimensions (WxHxD)

Small (PYHTB1_WHS)

External dimensions: 305 x 305 x 170mm
Internal dimensions: 250 x 230 x 135mm

Medium (PYHTB2_WHS)

External dimensions: 460 x 305 x 255mm
Internal dimensions: 415 x 230 x 215mm

Large (PYHTB3_WHS) - holds 3 cytotoxic tubs:

External dimensions: 650 x 380 x 255mm
Internal dimensions: 590 x 315 x 225mm

Milk Bank Bag

The milk bank bag is used for the transportation of pasteurised human breast milk in accordance with NICE guidelines. It has built in impact protectors and internal padding and is fitted with Thinsulate Insulation which helps to maintain the temperature of the contents for up to 6 hours. The standard colour is white.

Dimensions (WxHxD)

External dimensions: 305 x 305 x 305mm

We also supply weather proof covers for these bags, please call us for more information.

Vaccine Carrier

The vaccine carrier is designed to safely transport and store vaccines and drugs. It has built in impact protectors and internal padding and is fitted with Thinsulate Insulation which helps to maintain the temperature of the contents for up to 6 hours. The standard colour is orange.

Dimensions (WxHxD)

Small (PYTB-VAC1_ORS)

External dimensions: 305 x 305 x 170mm

Internal dimensions: 250 x 230 x 135mm

Medium (PYTB-VAC2_ORS)

External dimensions: 460 x 305 x 255mm

Internal dimensions: 415 x 230 x 215mm

Large (PYTB-VAC3_ORS)

External dimensions: 650 x 380 x 255mm

Internal dimensions: 590 x 315 x 225mm

Ampoules/Test Tube Carrier

The Ampoules/Test Tube carrier is made from heavy quality PVC and is padded to protect the contents. It can hold 9 test tubes/specimen bottles and has an internal pocket with zip for paperwork.

Dimensions (WxHxD)

130 x 175 x 70mm

Cytotoxic Bag

The cytotoxic bag is distinctive and highly visible and has been designed for the safe transportation of some cancer treatment products and documentation. It has built in impact protectors and internal padding and is fitted with Thinsulate Insulation which helps to maintain the temperature of the contents for up to 6 hours. The standard colour is yellow.

Dimensions (WxHxD)

External dimensions: 460 x 305 x 255mm

Internal dimensions: 415 x 230 x 215mm

Medical Records Holdall

The medical records holdall is used to store confidential patient medical records. When sealed using a security seal it ensures compliance with the Caldicott Report. It is made using high quality material and has a stiffened bottom to support a heavy load. It can be folded flat for ease of storage when not in use.

Dimensions (WxHxD)

300 x 350 x 300mm

Pharmacy Medical Bag

The pharmacy bag is used to transport patients' prescriptions and other drugs or paperwork. It is padded for the extra protection of its contents and is made using high quality weather resistant material.

Dimensions (WxHxD)
508 x 356 x 152mm

Pathology Satchel

The Pathology Satchel is used to transport important and confidential paperwork to and from the laboratory. It is made using high quality weather resistant material.

Dimensions (WxHxD)
305 x 305 x 100mm

Hospital Messenger Pouch

The hospital messenger pouch is the ideal way to securely transport confidential documentation or mail. Reusable over 2,000 times, this provides a cost effective solution to ordinary envelopes.

Dimensions (WxH)
406 x 305mm

Emergency Backpack

The emergency backpack is designed for paramedics to organise and comfortably carry essential medical equipment. The backpack is made from 600D PVC. It has 2 front pockets and the main section can be fully opened to display the entire contents. Inside the bag is divided into two sections. The first has elastic loops and velcroed pockets to hold equipment in place. The second section has 4 removable colour coded transparent pouches and more elasticated loops and a zip up pocket for paperwork. Please note that this bag is not fitted with a tamper evident locking mechanism.

Overall Dimensions (WxHxD)
430 x 510 x 250mm

Paramedic Bag

The paramedic bag is practical and light, ideal for paramedics to organise and carry their equipment. It is made from 1900D Polyester and has reflective strips that allow the bag to be easily identified. The inside of the bag is divided into 4 sections and has a removable transparent pocket in the lid. The outside has 4 pockets and a detachable shoulder strap with comfort pad for ease of carrying. Please note that this bag is not fitted with a tamper evident locking mechanism.

Overall Dimensions (WxHxD)
350 x 260 x 300mm

NHS Purchase Orders At we believe in making things easy for our customers. If you have a particular system you use for raising purchase orders, please contact us and we will be happy to work with you to keep your paperwork to a minimum.

Paramedic Oxygen Bag

The Oxygen Bag is used by paramedics to carry an oxygen cylinder and accompanying pressure regulator. The bag is made from 600D polyester and is padded to protect the contents. It has adjustable carry straps that enable the bag to be fastened to a mobile stretcher. Reflective strips allow the bag to be easily identified. The bag is large enough to carry either a 2L or 5L oxygen tank. Please note that this bag is not fitted with a tamper evident locking mechanism.

Dimensions (WxHxD)
585 x 225 x 210mm

Cervical Collar Bag

The Cervical Collar bag is used to store cervical collars to be used by paramedics in emergency situations. The bag is made of 600D Polyester and can hold 4 adult collars and 2 child collars. Please note that this bag is not fitted with a tamper evident locking mechanism.

Dimensions (WxHxD)
600 x 220 x 140mm

Blanket Storage Bag

The Blanket Storage bag is used to store patient blankets to be used by paramedics in emergency situations. The bag is made of 600D Polyester and can hold 2 blankets (depending on their size). Please note that this bag is not fitted with a tamper evident locking mechanism.

Dimensions (WxHxD)
415 x 520 x 145mm

Need something different? We do hold stock of many of our standard products, but we can also make bags to order.

This might mean a small adaptation to our standard product, such as printing a company or department name on the bag, or it might mean a completely new design. Whichever of these applies to you, please contact us and we will be happy to help.

Freeze Board 400g

The Freeze Board is a slimmer and tougher alternative to traditional ice-packs. It accompanies all insulated medical bags to maintain low temperatures. It has a slim line design which takes up less space and a tough polypropylene exterior for maximum durability. It is filled with non-toxic aqueous liquid and meets EN12546-3:2000.

Dimensions (LxWxH)

140 x 15 x 245mm

Temperature Data Logger

Supplies two types of temperature data loggers to complement our medical bags. One has an LCD screen to easily view temperature readings - we also offer an alternative without the LCD screen. They both measure and store up to 16,378 temperature readings over a -35 to +80°C (-31 to +176°F) range. They are simple to use and can be plugged into any PC or laptop to view the results.

Anti-Spillage Liner

An anti-spillage liner forms the secondary packaging referred to in P650 for UN3373 biological substances. The liner is a polythene bag with one open edge - use our securing clip to close the bag. Available in 3 sizes, they come in a pack of 5 and fit our specimen transport bags.

Dimensions (WxH)

Small: 610 x 762mm (Fits the Small Insulated Pathology Bag)

Medium: 610 x 915mm (Fits the Medium Insulated Pathology Bag)

Large: 762 x 915mm (Fits the Large Insulated Pathology Bag)

Clip also available
Product Code PYC1

Absorbent Pads

Supply absorbent pads for use with our pathology bag and specimen transport bags. They come in a pack of 20.

Dimensions

100mm²

Reversible Address Card

A simple address card for addressing document pouches. Each pack contains 10 address cards to fit standard pouch address windows.

Small Personal Property Bag/Key Wallet

The small personal property bag has a PVC coated nylon back and a clear front. It is ideal for secure key holding, as well as holding personal property in hospitals, prisons, or anywhere that personal items need to be securely stored.

Dimensions (WxH)

230 x 152mm (9 x 6")

Medium Personal Property Bag/Key Wallet

The medium personal property bag is made from heavyweight durable see through material. It is ideal for holding personal property such as keys, mobile phones or money.

Dimensions (WxH)

460 x 370 mm (18 1/2 x 14 1/2")

Large Personal Property Bag

The large personal property bag is ideal for holding personal property in hospitals, prisons, or anywhere that personal items need to be securely stored.

Dimensions (WxHxD)

457 x 330 x 75mm (18 x 13 x 3")

Garment Bag

The garment bag has proven to be a popular solution to the safe and logical storage of clothing items. Originally designed for use as secure prison bags, their application can extend across any need for clothing storage, including uniforms, fashion clothing and work overalls. It is made from lightweight, yet heavy duty material and is available with added pockets for shoes or boots. It has loops for ease of hanging and an address window to identify the contents.

Dimensions (WxHxD)

620 x 950 x 100mm

Keyrings

We supply a variety of keyrings for use across many sectors such as prisons, security companies and schools.

Jailer's Keyring

This large jailer's keyring has a screw lock for easy loading and unloading of keys and is available in either 100mm or 150mm diameter.

Retractable Keyring

This retractable keyring has a 600mm chain and a spring clip belt fixing.

Rivetable Keyring

This handy rivetable keyring is ideal for holding your keys and is available in 48mm diameter size.

Ballot Box

The ballot box has a unique design which offers an increased level of user-friendliness and security. It is foldable for easy storage and has a solid lid posting slot and dual tamper evident lids for the ultimate security. The ballot box has a separate section for the storage of paperwork and a large front window can take A4 sheets for labelling. This box has a lifespan of 50-100 elections.

Dimensions (WxHxD)

350 x 500 x 330mm

Half-Sized Ballot Box

Based on our innovative full size ballot box, this half size ballot box is ideal for smaller areas or parishes that don't require full-sized ballot boxes.

Dimensions (WxHxD)

350 x 400 x 330mm

Clear Ballot Box

The clear ballot box includes the same features as our standard box but this version of the box is completely clear, designed to meet the requirements of international users.

Dimensions (WxHxD)

350 x 500 x 330mm

Our ballot boxes are unique as they are foldable for ease of storage and transport, whilst also featuring a solid lid posting slot. This is necessary to prevent voters from being able to reach into a box and take slips out.

In addition each ballot box is fitted with dual tamper evident lids for the highest level of security during and after voting. This additional lid offers a section for the safe storage of the paperwork needed to accompany the ballot box. The tamper evident locking mechanism on both lids should be sealed with one of our security seals to ensure that the contents cannot be tampered with.

The full size ballot box can hold up to 65 litres and is reusable for between 50-100 elections. There are separate sections for the storage of paperwork and the large front window can take A4 sheets for labelling.

Presiding Officer Carry Case

This clear carry bag is used by Presiding Officers during elections for important confidential paperwork. It is made from heavy duty clear material and is fitted with a large gusset for bulky contents. It has reinforced carry handles for comfort and has an internal entry address/identification window.

Dimensions (WxHxD)

508 x 356 x 153mm

Reusable Wallet and Pencil Case

The reusable wallet and pencil case are ideal for storing and transporting documents and stationery items. They are made from light quality PVC and include an internal entry address/identification window. Please note that the standard version of this bag is not fitted with our tamper evident locking device. We can of course manufacture a tamper evident version on request.

Dimensions (WxH)

Wallet: 300 x 395mm

Pencil Case: 140 x 255mm

Secure Postal Vote Wallet

The Postal Vote Wallet is designed to securely store postal votes. It is made using heavy quality material and has a gusset to allow for a larger quantity of documents.

Dimensions (WxHxD)

Small (ZG1): 355 x 250 x 75mm (14 x 10 x 3")

Medium (ZG2): 406 x 305 x 75mm (16 x 12 x 3")

Large (ZG3): 457 x 355 x 75mm (18 x 14 x 3")

Extra large (ZG4): 457 x 355 x 125mm (18 x 14 x 5")

Polling Station Sign

The polling station sign is made from heavy duty PVC coated nylon with eyelets for ease of hanging. These signs are made in a range of shapes and sizes and can also be printed with any logo or information you choose. Please call us for more details.

Dimensions (HxW)

170mm x 820mm

Diplomatic Sacks

Diplomatic sacks are designed for protecting legal and sensitive documents and aiding in the safeguarding of information, particularly when in transit. They are made from high quality durable, weather-resistant material and have internal stitching to prevent tampering. They have a handy carrying strap and it is fitted with a T-bar to secure.

Dimensions (WxH)

Small (SK1437): 400 x 530mm

Large (SK1438): 520 x 870mm

As part of our vast range of tamper evident security products, we stock a selection of disposable seals and envelopes intended for single use.

The tamper evident security seals and locks we supply are designed for a range of security sealing applications, from fire extinguishers to shipping containers.

Why Use Security Seals?

Security seals are used to provide an indication of tampering and act as a deterrent against unauthorised access. Using a security seal will help you to ensure the integrity of goods or equipment.

Lite Variable Length Security Seal

The Lite is a variable length security seal and it was developed primarily for fire extinguishers. It is designed to have a deliberately low breaking strength for easy removal in emergencies. Each seal is printed with a unique number for identification purposes.

Dimensions

Length: 220mm
Stem width: 2.6mm
Tag: 21.3 x 33.5mm

Check Fixed Length Seal

The Check is a fixed length security seal and is predominantly used for vehicle doors, tankers, shipping containers and fire doors. The seal allows movement of the door locking mechanism without straining the seal. It has a fixed loop design and each seal is uniquely numbered. The seals have a patented double locking mechanism and a pre-determined break point. They are user friendly with easy removal by hand.

Dimensions

Length: 200mm
Stem width: 9mm

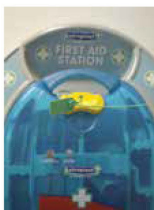

Tite Variable Length Security Seal

The Tite security seal locking system is designed with a spiky stem for better grip on slippery items, or items that need to be sealed outside making this security seal ideal for more robust applications. It is easily removed by hand and is printed with a unique number for identification purposes.

Dimensions

Length: 350mm
Width: 3.6mm
Tag: 50 x 3mm

Pull Metal Insert Security Seal

The Pull has multiple uses from courier bags to vehicle doors and shipping containers. It is user friendly and is easy to remove requiring no tools. Each seal is printed with a unique number for identification purposes. The Pull has a stainless steel spring locking mechanism and it has a smooth strap and side tear off option.

Dimensions

VersaPull 200	VersaPull 330
Length: 200mm	Length: 330mm
Diameter: 2.2mm	Diameter: 2.2mm
Tag Size: 55 x 18mm	Tag Size: 55 x 23mm

Lock Variable Length Security Seal

Lock security seals can be used to secure courier bags, cash bags, security containers and even freight tankers. It is a variable length security seal and has a metal insert locking jaw for extra strength. The VersaLock has a stainless steel spring locking mechanism and a polypropylene body with a smooth strap. Each seal is printed with a unique number for identification purposes.

Dimensions

Length: 250mm Stem width: 5mm Tag: 30 x 50mm

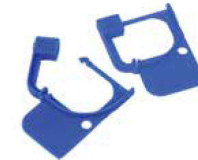

Cart Fixed Length Security Lock

The Cart is a padlock-shaped security seal designed to fit into the recess of a trolley or container and it is very popular with airlines for their food and duty free trolleys. It is fitted with an acetal locking mechanism and is easy to apply and secure with one hand. Each seal is printed with a unique number.

Dimensions

Tag: 23 x 15mm Maximum locking distance: 22.5mm

Cab Medium Metal Barrier Seal

The Cab security seal is a high security steel cable, which is designed for the security of high value goods and the storage of valuables over long periods of time. It is made from non-preformed galvanised steel cable which unravels when cut. Each seal is printed with a unique number and is removable only with a tool.

Dimensions

Length: 300mm Diameter: 2mm

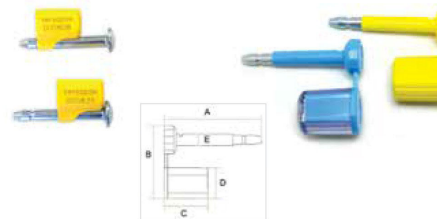

Bolt Barrier Seal

This high security bolt seal is made of high quality ABS material to withstand impact and reveal evidence of tampering. They are mostly used to secure vehicle doors and shipping containers. Each seal is uniquely numbered for enhanced security and they are suitable for temperatures ranging from -40°C to 110°C. They require a bolt cutter for removal.

Dimensions

VersaBolt Small:	C - 22mm	VersaBolt Large:	C - 38mm
A - 32mm	D - 70mm	A - 83mm	D - 27mm
B - 30mm	E - 8mm	B - 62mm	E - 8mm

Security Envelopes

Our polythene security bags provide a simple single-use method of securely storing or transferring documents, cash or other items.

Key Features:

- Tamper evident, easy to use closure seal
- A STOP/VOID message shows any attempt at tampering
- Each bag is printed with a unique sequential number and a barcode (2 of 5) for track and trace

Dimensions

Size 1 Internal size (mm): 177 x 335 + 1 receipt
Size 2 Internal size (mm): 260 x 415 + 1 receipt

Void Label

Security labels are quick and easy to apply and leave a clearly visible security VOID message when it is peeled off. They are used for many applications from protecting confidential documents or valuable equipment to securing vehicle doors. They are very user friendly and have a matt surface for writing. Our standard security labels are available in blue or red and in two sizes.

Dimensions

Void Label (Small): 60 x 20mm
Void Label (Large): 85 x 40mm

With corporate branding in mind, these security labels can be customised with your company logo, contact us to find out more about options for custom printing.

Mailroom furniture is manufactured in the UK using hardwearing and robust materials and is assembled in our Kent factory.

It is made with extra strong 50x25mm steel frames, scratch resistant paintwork and impact resistant worktops. All standard items are 750mm deep with two height options: sitting height 750mm and standing height 900mm. All units can be tailor made to suit your specific requirements - please call for details. All measurements are approximate. The standard colour for all mailroom items is grey.

Carriage costs depend on the quantity of items ordered and your location. Our furniture items, including our sort units, are delivered flat-packed to the ground floor delivery point of your building. If you have other requirements, please specify this when requesting your carriage quote.

Open Bench

The open bench is robust and hardwearing and sturdy with a stabilising cross rail. It is available with or without castors. We also offer an open bench with shelf.
