11	Insulin Pen Needle	19-21

Lancing Device

- Unique patented design to minimize the pain level.
- Non-touch removal to control the risk of accidental injury.
- Compatible with most lancets in market.

Type HH-XVI-T

Non-touch removal

Type HH-XVI-T

Simple and elegant appearance design

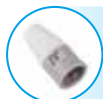

Type HH-XIII-T

10 depths available for different skin types

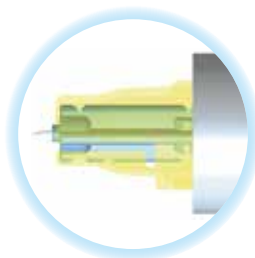

Type HH-X-T

Window depth indicator

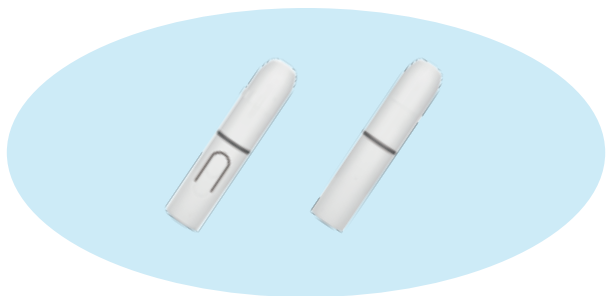

Elastic design

Invention Patent : ZL 2014 1 0314138.9

Interference between lancet and sleeve effectively reduces vibration of the needle, and makes needle go straight, which will help get maximum comfort.

Mini Lancing Device

Type HH-XIX

Mini Design

Mini dimension, easy to use and carry.

Safety

Automatic retraction after use.

Convenience

Compatible with most lancet.

Various Depths

5 depths available for different skin types.

Code	Discription	Colour	Package
NH-16015	10 depths	White/Black	1 pcs/bag 500 pcs/carton (or per customers' requests)
NH-13015	5 depths	Gray+White	
NH-10015	5 depths	Gray+White	
NH-10615	10 depths	Gray+White	
NH-19015	5 depths	Gray/Black	

Twist Lancet

- Irradiation sterilization.
- 100,000-grade cleanroom.
- 21G-33G complete specifications.
- Compatible with most lancing devices.

TWIST LANCET

Tri-beveled needle tip

Transparent colour

Straight needle inside

Stable exposed needle length

Compatible with most lancing devices

Twist Lancet 33G

- Large-scale production.
- More comfortable sampling experience.

TWIST LANCET

Needle diameter is only 0.21mm

Compatible with most lancing devices

Better choice for pain-sensitive user

Code	Gauge	Colour	Package
NH-21100	21G	Light Blue	100 pcs/box 200 boxes/carton (or per customers' requests)
NH-23100	23G	Light Blue	
NH-26100	26G	Light Blue	
NH-28100	28G	Transparent Blue	
NH-30100	30G	Transparent Blue	
NH-33100	33G	Light Blue	

Safety Lancet (Type XVII)

- Pressure activated.
- Tri-beveled needle tip to reduce the pain level.
- Automatic retraction for single use only.
- Irradiation sterilization and sealed needle to ensure 5 years of shelf life.

US&CN patented

Ergonomic handle design

Invention Patent
US: 9.826.927
CN: ZL 2012 1 0080546.3

- Stable firing system
- Elastic inner sleeve
- No repeated puncture

More than 10 years of guardianship

Low pain level
Safe and reliable
Convenient to use

Code	Specification	Colour	Blood	Package
NH-17212	21G*2.2mm			100 pcs/box 20 boxes/carton (or per customers' requests)
NH-17232	23G*2.2mm			
NH-17261	26G*1.8mm			
NH-17281	28G*1.8mm			
NH-17301	30G*1.6mm			

Safety Lancet (Type XXIII)

- Pressure activated.
- Tri-beveled needle tip to reduce the pain level.
- Automatic retraction for single use only.
- Irradiation sterilization and sealed needle to ensure 5 years of shelf life.

4 components

Ergonomic handle design

Anti-slip texture to increase friction

Firing system to be patented by US

Get your Concise Lancet

Cost-effective
Safe and reliable
Convenient to use

Code	Specification	Colour	Blood	Package
NH-23211	21G*1.8mm			100 pcs/box 50 boxes/carton (or per customers' requests)

NH-23261	26G*1.6mm			
NH-23281	28G*1.4mm			
NH-23301	30G*1.4mm			

SAFETY LANCET

SAFETY LANCET

Mini Safety Lancet (Type XXV)

- Pressure activated.
- Tri-beveled needle tip to reduce the pain level.
- Automatic retraction for single use only.
- Irradiation sterilization and sealed needle to ensure 5 years of shelf life.

US&CN patented

Easy to carry and use with mini dimension

Invention Patent
US: 9.826.927
CN: ZL 2012 1 0080546.3

- Stable firing system
- Elastic inner sleeve
- No repeated puncture

Eco-friendly
Low pain level
Elegant appearance

Code	Specification	Colour	Blood	Package
NH-25212	21G*2.2mm			100 pcs/box 40 boxes/carton (or per customers' requests)
NH-25232	23G*2.2mm			
NH-25261	26G*1.8mm			
NH-25281	28G*1.8mm			
NH-25301	30G*1.6mm			

Mini Safety Lancet (Type XXII)

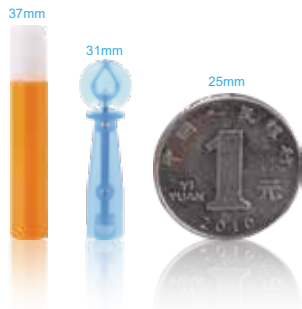

- Pressure activated.
- Tri-beveled needle tip to reduce the pain level.
- Automatic retraction for single use only.
- Irradiation sterilization and sealed needle to ensure 5 years of shelf life.

US&CN patented

Easy to carry and use with mini dimension

Invention Patent
US: 9.826.927
CN: ZL 2012 1 0080546.3

- Stable firing system
- Elastic inner sleeve
- No repeated puncture

Get your elegant Lancet

Eco-friendly
Low pain level
Good choice for homecare

Code	Specification	Colour	Blood	Package
NH-22212	21G*2.2mm			100 pcs/box 40 boxes/carton (or per customers' requests)
NH-22231	23G*1.8mm			
NH-22261	26G*1.6mm			
NH-22281	28G*1.6mm			
NH-22301	30G*1.4mm			

Adjustable Safety Lancet (Type XXIV)

- Pressure activated.
- Tri-beveled needle tip to reduce the pain level.
- Automatic retraction for single use only.
- Irradiation sterilization and sealed needle to ensure 5 years of shelf life.

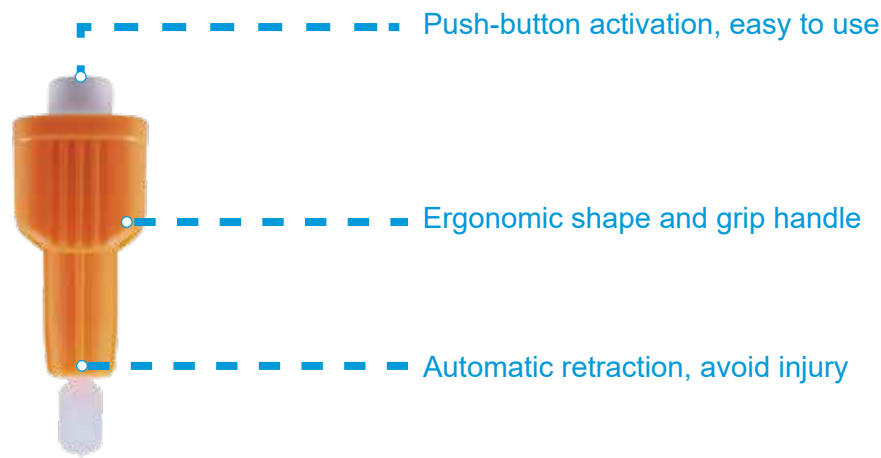

Adjustable Safety Lancet

Code	Specification	Depths	Colour	Package
NH-24211	21G	2.2mm 1.8mm 1.4mm		100 pcs/box 50 boxes/carton (or per customers' requests)
NH-24231	23G	2.2mm 1.8mm 1.4mm		
NH-24261	26G	2.0mm 1.6mm 1.2mm		
NH-24281	28G	1.8mm 1.4mm 1.0mm		
NH-24301	30G	1.8mm 1.4mm 1.0mm		

Top Fire Safety Lancet (Type XXVI)

- Push button to activate the lancet, which makes sampling more controllable.
- Ergonomic shape and grip handle make the sampling more comfortable.

Code	Specification	Colour	Blood	Package
NH-26212	21G*2.2mm			100 pcs/box 40 boxes/carton (Or per the customers' requests)
NH-26232	23G*2.2mm			
NH-26261	26G*1.8mm			
NH-26281	28G*1.8mm			
NH-26301	30G*1.6mm			

Heel Stick Safety Lancet (Type HHZ-II)

- Full specifications meet different blood sample collection needs.
- Irradiation sterilization and sealed individual package for 5 years of shelf life.

Only one step to get blood

Push down to release

Locked after use

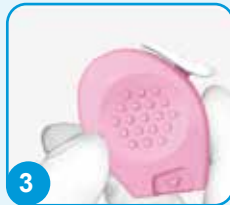

Use Instructions

1 Select the test site. Clean the site with an antiseptic swab and allow to air dry. Remove from blister pack.

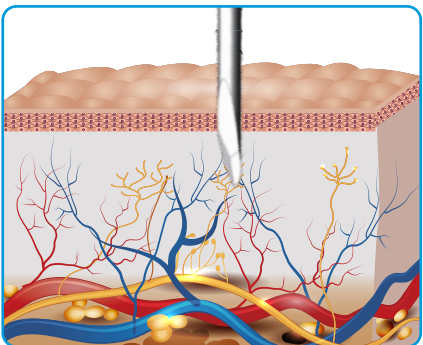

2 Place the heel stick against the baby's heel and activate by pressing downward on the white latch.

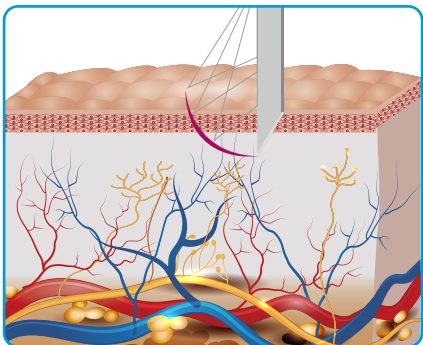

3 Discard it into a biohazard sharps container.

Motion blade design

Puncture blade

Motion blade

- Only reach the superficial blood vessels
- Enough blood sample
- Low pain level
- Quick wound healing

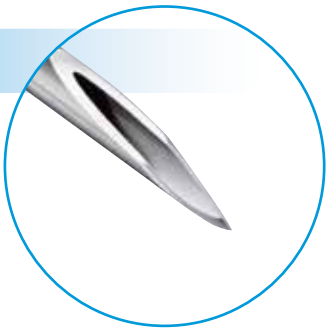

Code	Specification	Colour	Package
NH-54779	0.65 mm *1.5 mm		50 pcs/box
NH-54780	0.85mm*1.75 mm		20 boxes/carton
NH-54781	1.0mm*2.5mm		(or per customers'
NH-54782	1.5mm*2.8mm		requests)

Insulin Pen Needle (Ordinary Type)

Comfortable

- Tri-beveled and precision sharpened needle tips.
- Thin wall needle to meet ISO9626 for optimal insulin flow.
- Advanced siliconized needle lubrication to reduce pain.

- Compatible with most insulin pens, such as
Lilly: HumaPen Luxura, HumaPen Memoir,
HumaPen Ergo II, KwikPen.
Nova Nordisk: NovoPen Echo, NovoPen-4, FlexPen.
Owen Mumford: AutoPen.
Sanofi Aventis: ClikStar, SoloStar.
Amylin: SymlinPen.
Please call Huahong for other pens.

- Transparent appearance, the needle is clear to observe.
With Plasma treatment, needle tube and needle hub are bonded solidly.

Designed for Maximum Comfort

Code	Specification	Colour	Package
NH-30051	30G *5mm		100 pcs/box 50 boxes/carton (or per the customers' request)
NH-30061	30G *6mm		
NH-30081	30G *8mm		
NH-31051	31G *5mm		
NH-31061	31G *6mm		
NH-31081	31G *8mm		
NH-32041	32G *4mm		
NH-32051	32G *5mm		
NH-32061	32G *6mm		
NH-32081	32G *8mm		

Insulin Pen Needle (Safety Type)

Designed for Maximum Comfort

Safety

Red sign provide visual confirmation that the pen needle is activated. Shield automatically locks after injection to avoid accidental injury.

Needle is hidden from view before and after use for a less intimidating experience.

Flexibility to work with most insulin pens on the market.

Red sign shows it is used
Cannot be loaded again

Code	Specification	Colour	Package
NH-30600	30G*6mm		100 pcs/box 30 boxes/carton (or per customers' requests)
NH-30800	30G*8mm		
NH-31600	31G*6mm		
NH-31800	31G*8mm
