PART OF OUR INNOVATION TECHNOLOGY RANGE

Introduction

Niche Healthcare

Striving towards supplying medically approved products to help you deliver unparalleled neonatal care.

Niche Healthcare is a global provider of medical care solutions. We work with some of the world's trusted brands, such as Phillip, Cardinal Health, and GE Healthcare, to bring you high-quality healthcare products. Our vast array of healthcare solutions has reached medical institutions, maternity clinics, and paediatric wards.

In the UK alone, our supply reaches 85% of the NHS. We continuously provide medical equipment solutions to institutions with more than 347,000 products that fall under 428 categories.

We work towards leveraging and bringing new medical technology to support services for women and children to different healthcare institutions worldwide.

Our products and services cover a wide range of medical departments, including:

- Neonatal units
- Special care baby units
- Birthing centres
- Paediatrics
- Postnatal wards
- NICU
- Labour wards
- High dependency units

Our Goal

We want patients to receive the best care, which is why we extensively work on improving our supply chain and products through continuous clinical trials and innovations. All of these combined can bring new, unparalleled technology to hospitals, empowering you to give your patients the best services available.

We believe that through our healthcare solutions, we can help you prioritise patient care.

How You Help Us Innovate

We work closely with our clients to ensure that we meet each specific need. They discuss their challenges and requirements with us, allowing us to develop ground-breaking medical products.

At Niche Healthcare, we value the relationships that we've built with our stakeholders and clients. Our good relationships with clients, suppliers, and manufacturers have enabled us to come up with a balanced system that helps all parties achieve their goals.

Striving for Innovation in Healthcare Solutions

As new health challenges arise, we make it a point to continuously improve and innovate our products and services. We are constantly working towards developing new technology so that we can provide you with the right medical equipment that will best suit your needs.

Niche Healthcare and Clinical Trials

Clinical trials are crucial to development.

We endeavour to have an in-depth understanding of your needs. We study and test our products meticulously because we believe that these milestones are critical to bringing the best, cutting-edge solutions to our clientele.

Our Commitment

More than being just a provider of healthcare solutions, we are working towards collaborating with organisations, such as UNICEF, WHO, and the UN, to promote sustainability and support environmental development efforts worldwide. Ultimately, we are striving to achieve the ISO 14001.

The Niche Healthcare Neonatal Catalogue

Our neonatal catalogue features a selection of medical products and equipment that are designed for regular use. These products range from small consumables, such as baby head pillows and heel warmers, to high-impact technology devices, like neonate warmers and patient monitors, to help you deliver the best medical care to your patients.

Summary

In conclusion, Niche Healthcare is one of the top global providers of medical care solutions. We continuously work with various medical institutions around the world to ensure that they can provide patients the medical care they need and deserve. We continuously strive to be at the forefront of innovation so we can constantly bring ground-breaking medical and healthcare technology to your doorstep.

Niche Infant Heel Warmers

Infant Heel Warmers help increase blood flow to infants heel area, minimizing potential bruising, infection or cartilage damage caused by frequent heel sticks from blood tests. Infant Heel Warmers maximize the chance for successful blood draws, while helping to avoid multiple needle sticks. Specially designed gel pack conforms gently to the infants heel and activates instantly. Comes with lift and stick tape for easy application and removal.

Features:

1. Single Use, Direct-to-Skin application
2. Safe, even warmth on delicate skin
3. Instant activation for quick and easy use
4. Approximately 39.5oC/103oF heat when activated at room temperature 5. Latex free.

Instruction for use:

1. Fold top to bottom to "pop" inner fluid bag.
2. Knead pack to activate throughout.
3. Apply to the heel and secure with adhesive tab.

Product Components:

Chemical: 50g±5g Sodium Acetate
Tape: White self adhesive label
Water bag: PE/PET
Bag: 2.5 mil white PE/60g PA, Four side hot sealing method and Round cornered bag
Brand Description: Niche Healthcare
Model Number: NH-54774
Quality Certification: CE

Niche Heel Safety Lancet

Brand Description: Niche Healthcare
Model Number: Green: NH-54779; White: NH-54780; Yellow: NH-54781; Pink: NH-54782
Quality Certification: CE

Our Niche Heel Stick Safety Lancets are used to collect capillary blood samples to test if neonates have rare but serious congenital conditions, such as sickle cell disease, cystic fibrosis, congenital hypothyroidism and inherited metabolic diseases. Blood samples are taken from the heel, but the procedure can cause the neonate pain or discomfort, as well as a risk of local trauma to the nerves and blood vessels, bleeding, infection and scarring.

Product Parameters

Parameters	Colour	Use	Dep.
0.65*1.5mm	Green	Extremely Low Birth Weight<1kg	SCBU/NICU
0.85*1.75mm	White	Low Birth Weight 1-2.5kg	Neonatal
1.0*2.5mm	Yellow	Birth up to 6 months 2.5-9kg	Postnatal
1.5*2.8mm	Pink	6-24 months	Paediatrics

Niche Transparent Plasters

Brand Description: Niche Healthcare
Model Number: NH-54778 Quality
Certification: CE

- Sterilized
- Flex Freely
- Soft & Comfortable
- Homeostatic & Protective

Scope of Application:

It is mainly used for surgery to paste wound or fix pinhead of intravenous transfusion.

Direction:

1. Before use, should firstly clean and sterilize wound.
2. According to the wound degree, adopt the suitable elastic wound adhesion.
3. Along arrowhead direction, open packaging paper and aim absorption cushion at wound position, then remove left and right covering film to stick.
4. For wound sanitation, please replace the adhesion every day.

Notice

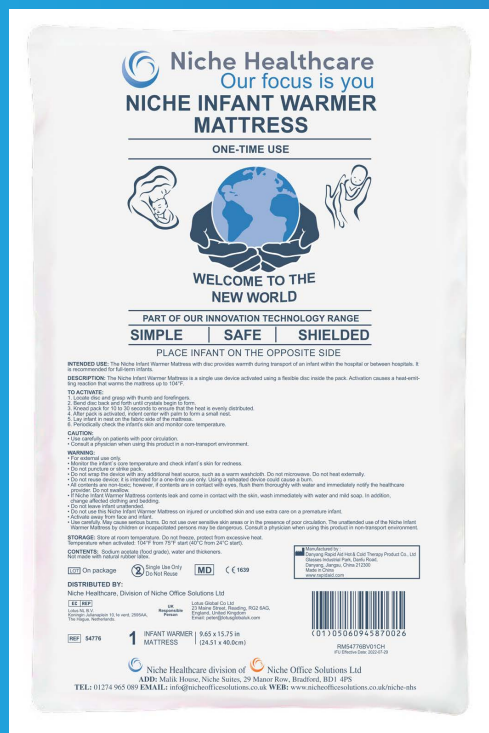

1. The product of broken packaging or expired is forbidden.
2. Only allow one time use.

Storage: Keep in well-closed container, and store in a cool and dry place.

Sterilization Method: Apply ethylene oxide to kill bacteria.

Using time: Before leaving factory, the product has been stored for over 7 days, so you can use at once after opening.

Niche Infant Warmer Mattress

Brand Description: Niche Healthcare

Model Number: NH-54776

Quality Certification: CE

Our gel-based Niche Infant Warmer Mattress helps bring warmth and comfort to infants during transport in or between hospitals. Upon activation, it reaches the target temperature in 90 seconds and stays warm for up to 2 hours, ensuring ultimate comfort and safety for the baby. Made with our patented Insta-Gel, the mattress is designed to efficiently reduce the risk of hypothermia for infants, especially when they need the protection the most.

Feature & Benefits

- **Safety and comfort** - Gel-based material for safe transport in or between hospitals.
- **Reduction of cold stress** - Keeps the infant warm during transport, minimising the risk of hypothermia.
- **Hygiene** - Single-use mattress, which minimises the risk of cross-infection.
- **Convenience** - Portable heat source; no electricity required.
- **Appropriate temperature** - Delivers approximately 39.5°C/103°F of warm therapy when activated at room temperature and will not exceed 40.5°C/105°F.
- **Ease of use** - Simple disc activation.
- **Lotus births** - Can be used when planning on delayed clamping and lotus births.
- **Highly recommend** - To use when babies are born during labour/delivery suite, and most definitely for home births to help aid warmth.
- **Unique** - The unique gelatinous texture and soft allows a 'nest' to be created, optimising the positioning of new-born infants.
- **Cushions** - Vibrations are cushioned and absorbed by the soft surface while transporting a new-born.

Niche Sterile Water Injection

Brand Description: Niche Healthcare

Model Number: NH-54777

Quality Certification: CE

The use of sterile water injections is a fantastic way to treat pain throughout labour. It's a quick and low intervention alternative to medical pain relief. Sterile water injections work for general labour pain and are particularly effective for back pain during labour. Sterile water injections can help you avoid an epidural. They can also provide relief while you're waiting for an epidural.

Niche Instant Warm Perineal Compress

Brand Description: Niche Healthcare

Model Number: NH-54775

Quality Certification: CE

The Niche Instant Warm Perineal Compress Warmer (direct-to-skin) quickly delivers soothing warmth that encourages tissue relaxation and increased blood circulation in the perineal area prior to childbirth, providing maximum patient comfort with minimal nursing intervention.

Feature & Benefits

- Hygienic warm compress.
- Helps to encourage blood circulation in the perineal area before child birth.
- Can help labour to progress naturally and minimise the need for surgical intervention or iatrogenic complications.
- For use within home birth procedures, as increased blood flows to the key area can aid a natural birth at home.
- The best time to use the warm compress is during the second stage of labour. Heat compression, when applied during the second stage of labour, is an inexpensive low-risk treatment that can help reduce perineal trauma.
- Hold the Niche Instant Warm Perineal Compress against the women perineum during and in between pushes in the second stage.
- Warmth can help blood vessels dilate and increase blood flow to the areas of the body and improve tissue flexibility and stretch.
- Once applied, the gentle pressure will hold it in place, so the whole perineum will then benefit from the warmth of the compress.
- It is normal to feel a stinging and/or burning sensation.

Hippo Paediatric Patient Medical Examination Couch/Bed Table

Brand Description: Niche Healthcare
Model Number: NH-89729
Quality Certification: CE

The Hippo Paediatric Patient Medical Examination Couch/Bed Table is a safe, smiling hand-painted fiberglass exam table that can outperform and outlast other, wooden laminate, tables. It can hold patients weighing up to 400 lbs. Each table has a raised edge top and two large-capacity locking drawers, large enough to hold a paediatric scale.

Specification:

- Bright, friendly design creates an engaging paediatric space.
- Ideal for easy outfitting of an entire examination room.
- Durable construction ensures longevity and ease of use.
- Wide range of supplies and components provide everything you need.
- Foot extension measuring 17" x 15".
- Elevated back with gas spring, which stops in any position up to 45 degrees.
- Easy-to-clean dove grey vinyl top made with 4 inch medically approved foam.
- Flush-mounted lift handles on both sides.
- Deep foot inset for easy patient access.
- Built-in paper roll holder holds 18" and 21" paper rolls.

Paediatric Reflex Hammer Parrot

Brand Description: Niche Healthcare
Model Number: NH-00975
Quality Certification: CE

Parrot Reflex Hammers are high quality and field-tested products that allow patients to feel comfortable in the doctor's office. Pedia Pals' Reflex Hammers were created to allow doctors to perform their task while the young patient has reduced anxiety and feels welcomed in the environment.

Pedia Pals' Parrot Reflex Hammer is a great addition to an existing paediatric office or as part of a renovation to be more patient and healing oriented. Keeping a little patient from being a little impatient.

Specification:

- Balance, durometer, and weight match the quality and performance of conventional hammers
- Integrated internal stiffener for strength and overall rigidity
- Pocket clip made of strong, durable Polypropylene
- Patented engineering and design
- 7 1/2" long ergonomic design
- Soft PVC molded
- Non-toxic hand painted decoration
- Certified Latex free

CV101 Malibu Cervical Collar Paediatric

Brand Description: Niche Healthcare
Model Number: NH-87621
Quality Certification: CE

Manufactured with non-ferrous material

Used to support and stabilize cervical spine and upper thoracic spine after injury or surgery.

Indications

C2-T3 stable fractures, muscular / ligamentous injury, degenerative joint disease, cervical pain/nerve impingement.

Contraindications

Unstable fractures, type II dens fractures.

Specification:

- Type of spine support: cervico-thoracic.
- Patient type: Paediatric.

Embrace Warmer

Brand Description: Niche Healthcare
Model Number: NH-82783
Quality Certification: CE

A steady supply of electricity is lacking in many hospitals in developing countries, adding to problems of limited resources and overcrowding. Premature infants, lacking the ability to maintain their temperature, must be provided warmth for them to survive. The Embrace Warmer is a low-cost solution that maintains the body temperature of premature and low-birth-weight babies at the desired level even with intermittent access to electricity. The Embrace Warmer can also be used for transporting hypothermic newborns.

Emergency Portable Cot Stretcher

Brand Description: Niche Healthcare
Model Number: NH-00975
Quality Certification: CE

Carry cot for the safe emergency evacuation of newborn and premature babies.

The Buscot BabEvac cot is designed for the emergency evacuation of premature and newborn babies from special care units in the event of fire or other emergency. Ideal for use in premises where stairs are to be negotiated. Portable and lightweight, the Buscot can carry up to two babies per cot depending on size and conditions. The flexibility and strength of the Buscot allows for easy handling by staff with adequate support and protection for the babies.

Shoulder straps, enable carers to be 'hands free' to administer needed care to the infant while evacuating. Each Buscot includes secure storage for an oxygen cylinder (size CD) on the underside of the cot, to allow for manual ventilation of the baby if required (oxygen cylinder not included). Secure storage for small size CD oxygen cylinder (cylinder not included). Webbing straps with plastic buckles. Wall mountable, wipe clean storage bag.

Patient Warming System

Brand Description: Niche Healthcare
Model Number: NH-48046
Quality Certification: CE

The Patient Warming System is a whole-body hyperthermia system that allows conductive warming therapy to be administered. It can be used in the operating room, pre-op, recovery, emergency or any other department in need of patient warming therapy.

Specification:

- Cost-effective heat therapy system
- Microprocessor controlled
- Helps maintain normothermia
- Pre-warming feature
- Compact size helps save space
- 2 Blanket connections
- Easy to use interface
- Stand with I.V. Pole
- Low Profile Stand
- Dimensions - 9" W x 15" D x 18.5" H (22.9cm x 38.1cm x 46.9cm)
- Weight - 33.5 lbs (15.2kg)
- Water Temperature Range - 32°C – 42°C (89.6°F – 107.6°F) – HEATING ONLY
- Heater - 800 Watts
- Flow Rate - 42GPH (115V) / 36GPH (230V)

Support Pad Gelli-Roll

Brand Description: Niche Healthcare
Model Number: NH-62727
Quality Certification: CE

The Gelli-Roll,® when used with Gentherm's thermal regulating systems, offers revolutionary patient warming and cooling. The simple-to-use Gelli-Roll® combines patient temperature management and comfort based, in part, on the fact it is a reusable water blanket encapsulated in polymer. It may be used before, during, or after surgery to effectively keep your patient normothermic.

Horizontal Bed Head Unit

Brand Description: Niche Healthcare
Model Number: NH-78260
Quality Certification: CE

Bed head unit designed for children's wards where the patients will surely not be bored. With wide choice of layouts, shapes, and colours, the Horizontal Bed Head Unit provides a nicer and friendlier atmosphere in hospital rooms. This bed head unit provides a variety of electrical, IT and lighting options including fluorescent or LED lights and possibility of Ambient Light or Control Light technology. The Horizontal Bed Head Unit is fitted with electrical sockets that are safe for children. Front panel is made of Corian® DuPont® what enables 3D designs. Corian is a Solid Surface material very easy to clean what is of crucial importance in hospitals.

MS-B280 Ruler Baby Scales

Scale Mechanical Ruler

Brand Description: Niche Healthcare
Model Number: NH-89231
Power Source: Electricity
Warranty: 2 years
After-sale Service: Online technical support
Material: Metal, Plastic
Shelf Life: 2 years
Quality Certification: CE
Instrument classification: Class II

Infant Baby Electronic Digital Weighting Scale

High Accurate Weighting Scale

Brand Description: Niche Healthcare
Model Number: NH-56212
Product size: 650 x 320 x 88mm
LCD size: 90 x 26mm
Capacity: 120kg (20kg, d=5g, 20-120kg, d=50g)
Unit: kg/lb/st/g
Power: 4 x 1.5V AAA batteries
 High precision strain gauge sensor
 Full ABS design
 Auto off with tare function
 Overload and low battery indication

Infant Wireless Baby Monitor with Screen

Two Way Audio

Brand Description: Niche Healthcare
Model Number: NH-23267

Camera
Image sensor: 720P 1/4-inch CMOS / 1080P 1/3-inch CMOS
Camera resolution: 1280X720 / 1920X1080, real 25fps
Chipset: SONIX RTOS low-power consumption full HD chipset
Field of viewing angle: 70°(Horizontal) 3.6mm 720P HD lens
Night vision: 940nm invisible LEDs, >5LUX (IR OFF)/<0LUX(IR ON)
IR Range: 3~5m
Pan/Tilt: Pan: 0 ~355 degree, Tilt: 0~80 degree
Audio transmission: Two-way voice intercom(Half Duplex, Microphone, Speaker)
Wireless Transmission way: 2.4GHz FHSS /700 ~ 900 ft (210m ~ 270m), antenna inside
Sound sensitivity: High 60dB/Medium 68dB/Low 78dB
Temperature alarm: Temperature sensor, <15°C/59°F, >29°C/84°F
Alarm mode: Sound detection/temperature/video loss/feeding wake-up/low battery
Interface: USB power supply, Pair button
Power supply: 5V 2A
working current: 900mA(motor rotation and LEDs ON), 260mA (Normal)

Monitor
Screen size: 5"
Resolution: 280X720, real 25fps
Software menu: CAMERA PAIR/ SOUND DETECTION/ TEMPERATURE ALARM/ LANGUAGE /LULLABIES /SLEEP MODE /FEEDING/SETTINGS
 Manual / Auto (Sleep mode)
Screen off: POWER/CHARGER/MIC/SOUND LEVEL
Indicator: Support one channel, up to 4 channels, loop mode display
Video input: USB power supply and charging port
Interface: 5V 2A
Power supply: 350mA(screen on)/230mA (screen off)
Working current: 2000mAh pure cobalt, >5 hours(screen always on)
Li-polymer battery:

Washable Knit Cover Small

Neonate, Infant

Brand Description:	Niche Healthcare
Model Number:	NH-34897
Latex-free:	Yes
Packaging Unit:	6/Case
CE Certified:	Yes
DEHP-free:	Yes
Product Category:	Positioning
Product Type:	Prone Plus Ventral
Package Weight:	Support 0.0680kg
Sterile or Non-Sterile:	Non-Sterile
Single-Patient Use OR Multi-Patient Use:	Multi-Patient Use
Patient Application:	Infant/ Neonate

Washable Knit Cover for Prone Plus Medium

Neonate, Infant

Brand Description:	Niche Healthcare
Model Number:	NH-89432
Latex-free:	Yes
Packaging Unit:	6/Case
CE Certified:	Yes
DEHP-free:	Yes
Product Category:	Positioning
Product Type:	Prone Plus Ventral
Package Weight:	Support 0.0454kg
Sterile or Non-Sterile:	Non-Sterile
Single-Patient Use OR Multi-Patient Use:	Multi-Patient Use
Patient Application:	Infant/ Neonate

Washable Knit Cover for Prone Plus Large

Neonate, Infant

Brand Description:	Niche Healthcare
Model Number:	NH-89232
Latex-free:	Yes
Packaging Unit:	6/Case
CE Certified:	Yes
DEHP-free:	Yes
Product Category:	Positioning
Product Type:	Prone Plus Ventral
Package Weight:	Support 0.0907kg
Sterile or Non-Sterile:	Non-Sterile
Single-Patient Use OR Multi-Patient Use:	Multi-Patient Use
Patient Application:	Infant/ Neonate

B3 Better Bendy Bumper, Extra Small 28" Long, Complete Unit with Washable

Neonate, Infant

Designed with the same hermetically-sealed metal rod structure of the original Bendy Bumpers, the B3 is enclosed with a permanent, wipeable urethane (Dermaplush) cover. The wipeable urethane cover makes the entire B3 reusable for multiple patients. The B3 Better Bendy Bumper can be wiped down in accordance to each individual hospital unit's cleaning protocol and can be reused for multiple patients. The cloth covers can be laundered and reused; the disposable covers are designed for single patient use. The B3 Better Bendy Bumper is available in two sizes – Better Bendy Bumper 28 inch and Better Bendy Bumper 36 inch.

Brand Description:	Niche Healthcare
Model Number:	NH-89343
Latex-free:	Yes
Packaging Unit:	6/Case
CE Certified:	Yes
DEHP-free:	Yes
Product Category:	Positioning
Product Type:	Bendy Bumpers
Package Weight:	0.5216kg
Sterile or Non-Sterile:	Non-Sterile
Single-Patient Use OR Multi-Patient Use:	Multi-Patient Use
Patient Application:	Infant/ Neonate

Prone Plus with Knit Cover Small (800-1250g) Prone Plus Ventral

Neonate, Infant

Prone Plus, designed with input from bedside clinicians and therapists, was developed to meet the prone positioning needs of hospitalized infants. Prone Plus assists in proper prone positioning and ventral support by utilizing the natural force of gravity. The unique hourglass shape facilitates natural rounding of the shoulders, hand-to-mouth coordination and head and trunk alignment – all important components in the support of the Developmental Care of infants. Features: Wipe able, reusable urethane cover; soft, washable outer knit covering; soft, comfortable foam body; four different sizes to provide for proper positioning of premature through full-term infants.

Brand Description:	Niche Healthcare
Model Number:	NH-38593
Packaging Unit:	6/Case
Latex-free:	Yes
CE Certified:	Yes
Package Weight:	0.0680kg
Product Type:	Prone Plus Ventral
DEHP-free:	Support Yes
Product Category:	Positioning
Single-Patient Use OR Multi-Patient Use:	Multi-Patient Use
Patient Application:	Infant/ Neonate
Sterile or Non-Sterile:	Non-Sterile

Jaundice Phototherapy

Bilirubin Detector for Infants

Brand Description:	Niche Healthcare
Model Number:	NH-20398
Power Source:	Electricity
Warranty:	1 year
After-sale Service:	Free spare parts
Material:	Acrylic, Steel, Stainless steel, ABS
Shelf Life:	1 year
Quality Certification:	ISO
Instrument classification:	Class II
Safety standard:	GB15979-2002
Product name:	Jaundice detector
Application:	ICU
Colour:	White, pink, yellow
Keyword:	Jaundice detector for infants
Certificate:	CE ISO
MOQ:	10PCS
OEM:	Available
Function:	Diagnosis
Packing:	Box

Neonate Bilirubin Phototherapy Equipment

Brand Description:	Niche Healthcare
Model Number:	NH-90822
Power Source:	Electric
Warranty:	1 year
After-sale Service:	Free spare parts Metal, LED
Material:	LED
Shelf Life:	3 years
Quality Certification:	CE
Instrument classification:	Class III
Safety standard:	IEC60601
Type:	Infant Care Equipments
Certificate:	CE ISO CMD
Application:	To Cure Neonate Bilirubin
Radiate resource:	Blue LED
Life time of LED:	20000 hrs

Portable Neonatal Jaundice Phototherapy Lamp

Lifting & Mobile Stand

Brand Description:	Niche Healthcare
Model Number:	NH-23890
Power Source:	Electricity
Warranty:	1 year
After-sale Service:	Online technical support
Material:	Metal, Plastic
Shelf Life:	1 year
Quality Certification:	CE
Instrument classification:	Class II
Safety standard:	None
Adjust Height:	1100mm~1500mm
Working Environment Equipment:	+10°C~+30°C
Display Time Accuracy:	2h±1min
Wavelength:	400~500nm
Adjust Angle:	30°/60°/90°
Time Display Range:	9999h 59min
Light Source:	Blue tube / LED tube

Neonatal Finger Pulse Oximeter

CE Approved Fingertip Pulse Testing Equipment

Brand Description:	Niche Healthcare
Model Number:	NH-29038
Power Source:	Electric
Warranty:	2 years
After-sale Service:	Online technical support
Material:	Metal, Plastic
Shelf Life:	3 years
Quality Certification:	CE
Instrument classification:	Class II
Safety standard:	None
Certificate:	CE ISO
Application:	Clinic & Hospital & Family
Material:	ABS
SpO2 measuring range:	0%~100%(the resolution is 1%)
Accuracy:	70%~100%: ±2%, Below 70% unspecified.
Display:	OLED display respectively
PR measurement range:	30bpm~250bpm (resolution is 1bpm)
Power Consumption:	Less than 80mA
Power Supply:	Voltage 3.6 rechargeable lithium battery *1

Childbirth Skill Training Simulator

Giving Students Experience

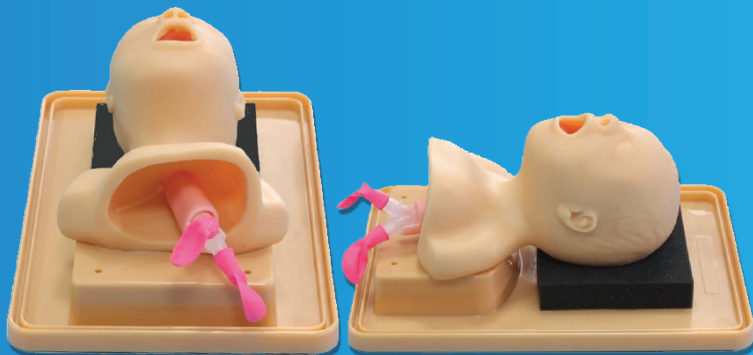

Brand Description: Niche Healthcare
Model Number: NH-21309
Subject: Medical Science, Medical Science
Type: Manikin

Neonate Emergency Airway Intubation Manikin

Oral and Nasal Intubation

Brand Description: Niche Healthcare
Model Number: NH-23892
Type: First-Aid Devices
Instrument classification: Class I
Power Source: Manual
Warranty: 1 year
After-sale Service: Online technical support
Categories: Intubation manikin
Size: Natural
Certificate: ISO9001/ISO14001
Customers: Medical School Students
Material: Advanced PVC
Feature: Vivid
Packing: Carton
Colour: Beige

Medical Therapy Jaundice Lamps

Indoor Baby Jaundice Therapy

Brand Description: Niche Healthcare
Model Number: NH-22190
After-sales Service Provided: Online support
Certification: FCC CE
Feature: Blood Vessels Removal, Skin Tightening, Pigment Removal, Acne Treatment, Skin Rejuvenation, Wrinkle Remover, Physiologic Jaundice For Home Use, Indoor Baby Jaundice Therapy
Application: PDT
Type: E27
Lamp Head: 12pcs
LED QTY: 24W
Lamp Power: All 450nm
Wavelength: 30 degree
Beam angle: 0.26KG
Net Weigh: D120*140 mm
Product Dimension:

Infant Phototherapy Unit

Medical LED Biliblanket

Brand Description: Niche Healthcare
Model Number: NH-12390
Place of Origin: China
Brand Description: MKR
Model Number: B-200A
Power Source: Electric
Warranty: 1 Year
After-sale Service: Online technical support
Material: Metal, Plastic
Shelf Life: 1 year
CE
Quality Certification: Class II
Instrument classification: None
Safety standard: Infant Phototherapy Unit
Product name: 10VA
Input Power: 40*24cm
Effective area: 800uW/cm²
Bilirubin total irradiance maximum: >0.4
Uniformity of Ebi: ≤10mW/ cm²
Infrared radiation: ≤1.0*10-5mW/ cm²
Ultraviolet radiation: ≤55dB(A)
Operate noise:

Babylog 8000 Flow Sensor Cable

Flow Sensor Cable

Brand Description: Niche Healthcare
Model Number: NH-32092
Disinfecting Type: No
Size: 1.9m
Shelf Life: 1 year
Material: TPU
Quality Certification: CE
Instrument classification: Class I
Safety standard: ISO
Cable Colour: Grey
Cable Material: TPU

ECG Bedside Patient Monitor

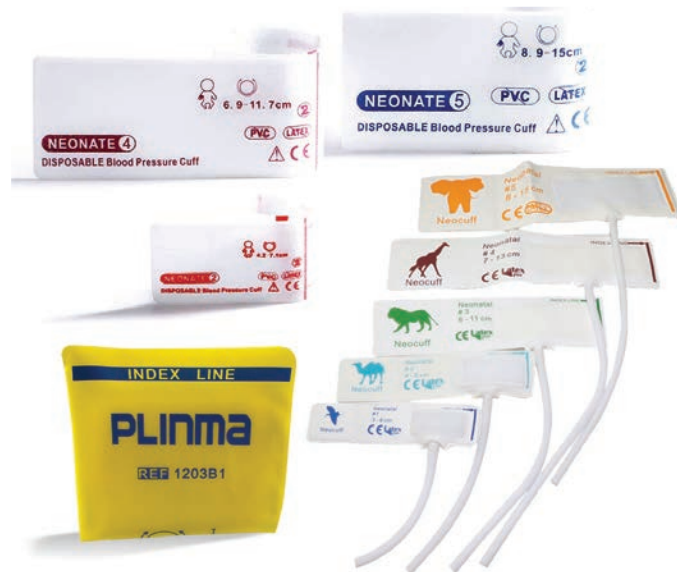

Examination Therapy Equipments

Brand Description:	Niche Healthcare
Model Number:	NH-89342
Power Source:	Electric
After-sale Service:	Repair and Replacement
Material:	Plastic
Shelf Life:	1 year
Quality Certification:	CE
Instrument classification:	Class II
Safety standard:	None
Type:	Examination Therapy Equipments
Certificate:	CE ISO
Display:	LCD Display
Dimension:	340mm(L) * 320mm(W) * 85mm(H)
Weight:	3.2Kg
Power supply:	AC/DC
AC:	100V-240V(50/60Hz)
DC:	14.8V/3500mAh rechargeable lithium battery
Paper size:	210mm(W)*20m(L)

NIBP Blood Pressure Cuff

For the Neonatal Unit

Brand Description:	Niche Healthcare
Model Number:	NH-23409
Disinfecting Type:	N/A
Size:	1-5
Shelf Life:	1 year
Material:	Non-woven fabrics TPU, ROHS
Quality Certification:	CE
Instrument classification:	Class I
Safety standard:	ISO10993-5 10993-10
Certificate:	CE/ISO13485
OEM:	OEM Experience Rich
Advantage:	Perfect Compatible

Our Focus is You

Reusable Neonate Blood Pressure Cuff

Neonatal Surgical Supplies

Brand Description:	Niche Healthcare
Model Number:	NH-39201
Disinfecting Type:	75% Medical Alcohol
Properties:	Medical Materials & Accessories
Size:	20.5-28 CM, 20.5-28cm
Stock:	NO
Shelf Life:	3 months
Material:	PU
Quality Certification:	RoHS,CE
Instrument classification:	Class I
Safety standard:	YY 0670-2008
Compatible Brand:	Amydi-med
Type:	Surgical Supplies
Service:	OEM, ODM
Cable Colour:	Brown
Warranty:	3 months
Certificate:	CE/ISO13485
Application:	Neonate
Tube Materials:	PU
Tube style:	Double

Paediatric NIBP Cuffs Reusable

Blood Pressure Measurement

Brand Description:	Niche Healthcare
Model Number:	NH-09324
Disinfecting Type:	NO
Properties:	DIAGNOSTIC Instruments
Size:	Bladder 9.8x18cm, Limb cir=18-26cm
Stock:	YES
Shelf Life:	3 years
Material:	TPU
Quality Certification:	CE
Instrument classification:	Class I
Safety standard:	MDR
Application:	Clinic
Keyword:	Blood Pressure Cuff
Colour:	Blue
Function:	Blood pressure measurement
Length:	18-26cm
Certificate:	CE/ISO13485
Type:	Paediatric reusable non-invasive blood pressure

Our Focus is You

Mainstream

EtCO2 Airway Adapter, Neonatal

Mainstream monitoring is an ideal choice for intubated patients. It provides a non-diverting, crisp, accurate CO2 waveform with no time delay, and does not require use of a scavenger system to collect anaesthesia gases. Because patient secretions or high humidity do not contaminate the sensor, it is a preferred choice for these patient conditions or environments. Mainstream EtCO2 sensor uses a common extension server, providing clinical versatility to use with the same monitor. No calibration is required. The sensors remain stable over time with automatic calibration information.

- Mainstream Technology
- Reusable - Multi-Patient Use, Neonatal • Intubated
- Single Unit

Product details

Brand Description:	Niche Healthcare
Model Number:	NH-56373
Sterile OR Non-Sterile:	Non-Sterile
Not manufactured with natural rubber latex:	Yes
Use with Non-Philips Healthcare Equipment:	No
Intubated or Non-Intubated:	Intubated and Non-Intubated
Product Category:	Gas
Package Weight:	0.02kg
Packaging Unit:	1 box 1 adapter
Product Type:	Capnography
Single-Patient Use OR Multi-Patient Use:	Multi-Patient Use
Use with Philips Healthcare Equipment:	Yes
CE Certified:	Yes

Gas Capnography

Patient Application:	Neonate; Infant
Technology:	Mainstream

Microstream

Capnography

CapnoLine H for infant/ neonatal use, Microstream monitoring, nasal, up to 24 hours, non intubated, single purpose.

Gas Capnography

Patient Application:	Neonate
Short Term or Long Term :	Long Term
With Oxygen:	No
Tube Length:	2.0 m (6.6')
Technology:	Microstream
Intubated or Non-Intubated:	Non-Intubated

Product details

Brand Description:	Niche Healthcare
Model Number:	NH-75743
Product Category:	Gas
Use with Non-Philips Healthcare Equipment :	Yes with any Microstream monitor
Sterile OR Non-Sterile:	Non-Sterile
Not manufactured with natural rubber latex:	Yes
Use with Other Supplies:	N/A
Product Type:	Capnography
Packaging Unit:	1 case = 25 sets
Package Weight:	0.810 kg
Use with Philips Healthcare Equipment:	M3015A, 862478, 863266, M8105A, M8105AS, M3015B
Minimum Shelf Life:	None
Single-Patient Use OR Multi-Patient Use :	Single-Patient Use
CE Certified:	Yes

4 Lead Neonatal ECG Cable

ECG Cable

4 Lead Neonatal ECG Cable. Compatible with the Neonatal Quadtrode 989803179051 and Invivo wireless ECG modules.

Brand Description:	Niche Healthcare
Model Number:	NH-89322
Use with Philips Supplies:	9312, 989803163121, 989803172441
Unit of Measure:	1/each
Latex-free:	Yes
CE Certi ied	Yes
Disposable or reusable: Use	Reusable
with Philips Equipment:	Expression, Expression MR200, Precess, Precess Blue, Philips
Package Weight:	MR 0.070 kg
Sterile or Non-Sterile:	No
Patient Application:	Neonatal

Sidestream LoFlo

EtCO2 Airway Adapter, Infant/Neonate

Sidestream monitoring is a good option for patients requiring intubation during short-term procedural sedation or anaesthesia. LoFlo sidestream EtCO2 sensors use a common extension server, providing clinical versatility to use with the same monitor. No calibration is required. The sensors remain stable over time with continual and automatic validated calibration information.

- Sidestream technology
- Single Patient Use (SPU), Infant/Neonate
- Short Term • 1Boxof10

Product details

Brand Description:	Niche Healthcare
Model Number:	NH-37621
Use with Non-Philips Healthcare Equipment:	No
Product Category:	Gas
Not manufactured with natural rubber latex: Sterile OR Non-Sterile:	Yes
Product Type:	Non-Sterile
Packaging Unit:	Capnography
Package Weight:	1 Box of 10
Single-Patient Use OR Multi-Patient Use:	0.320 kg
Use with Philips Healthcare Equipment:	Single-Patient Use
CE Certi ied:	Yes
	Yes

Gas Capnography

Patient Application:	Infant: Neonate
Short Term or Long Term	Short Term
Tube Length:	2.5m (8 ft 4in)
Technology:	Sidestream
With Oxygen:	No
Intubated or Non-Intubated:	Intubated

Flow Sensor Neonatal Spirometry

Flow Sensor Neonatal Spirometry combined CO2/flow, infant, ET: <4mm, (colour: violet)

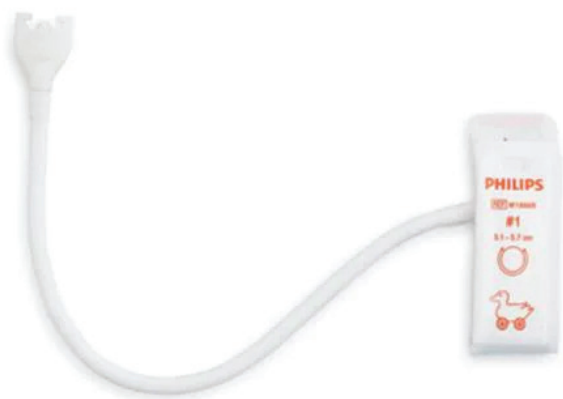

Brand Description:	Niche Healthcare
Model Number:	NH-82345
Not manufactured with natural rubber latex:	Yes
Use with Other Supplies:	N/A
Sterile or Non-Sterile:	Non - Sterile
Use with Non-Philips Healthcare Equipment :	No
Product Category:	Gas
Package Weight:	0.780kg
Product Type:	Spirometry
Packaging Unit:	10 per box
Single-Patient Use OR Multi-Patient Use:	Single-Patient Use
Use with Philips Healthcare Equipment :	M1014A
Minimum Shelf Life:	None
CE Certified:	Yes

Neonatal Single-Patient Size #1

Infant Care Equipment

Flow Sensor Neonatal Spirometry combined CO2/flow, infant, ET: <4mm, (colour: violet)

Neonatal / Paediatric Solid Gel Electrode

Disposable cloth, solid gel, snap electrode. Silver/silver chloride (Ag/AgCl) sensor, repositionable. Neonatal and pediatric monitoring, 22mm x 33mm (7/8" x 1-1/4"), non-invasive patient monitor.

ECG Electrode

Material:	Cloth
Gel-Type:	Solid
Electrode Size:	22 mm x 33 mm (0.9" x 1.3")
Electrode Shape:	Rectangle
Electrode Connector Type:	Snap, Grabber
Patient Application:	Neonatal; Child

Single-patient, Neonatal/ Infant/Adult SpO2 Wrap Sensor

Brand Description: Niche Healthcare
Model Number: NH-39942

Airway adapter/flow sensor, two-port, C02, neonatal, package of 10.

Airway Adapter, LoFlo C02 Package of 10, Neonatal/ infant

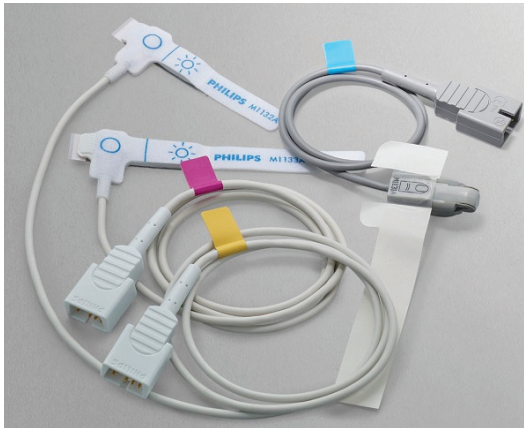

Brand Description: Niche Healthcare
Model Number: NH-38742

Airway adapters are for single use.

Single-patient, Neonatal / Infant/Adult SpO2 Wrap Sensor

The Philips M1133A pulse oximetry sensor delivers continuous, non-invasive measurement of arterial oxygen saturation. Designed for multi-day, single-patient use, the M1133A wrap sensor is made of soft and flexible material and is manufactured without latex. It can be placed around the hand or foot to measure pulse oximetry on patients weighing less than 3 kg (6.6 lbs), as well as on the big toe or thumb of children from 10-20 kg (22-44 lbs), and on any finger except the thumb on patients over 40 kg (88 lbs).

Product details

Brand Description: Niche Healthcare
Model Number: NH-38952
Latex-free: Yes
Single OR Multi-Patient Use: Single-patient use
Adapter cable compatibility: M1943A; M1943AL
Cable Length: 90 cm (35.4")
Package Weight: 0.959 kg
Minimum Shelf Life: None
Use with Philips Equipment: 863265, 863276, 863278, M1020B, M2703A, M2704A, M2705A, M3001A, M3002A, M3535A, M3536A, M3536M, M8102A, M8105A, M8105AS
Application site: Finger (Adult); Big Toe/Thumb (Child); Foot/Hand (Neonate)
Patient Application Recommended patient weight: Neonate; Child; Adult
weight: Sterile or Non-Sterile: <3 kg; 10-20 kg; >40 kg
Non-sterile

Skin Surface Temperature Probe, Reusable Continuous Monitoring, 2-prong Plug

Blood Pressure Measurement

Airway adapter/flow sensor, two-port, C02, neonatal, package of 10.

Merenstein & Gardner's Handbook of Neonatal Intensive Care

Illustrated - 3rd July 2020

Brand Description: Niche Healthcare
Model Number: NH-12091

It encompasses all aspects of children's nursing from the most basic aspects of everyday practice to advanced practice in high dependency and intensive care to provide a comprehensive resource for all qualified nurses, students, and other health-care professionals involved in caring for children, both in the hospital and the community setting.

Children's and young people's nursing presents unique challenges. The Great Ormond Street Hospital Manual utilises the latest clinical research and expert clinical knowledge to address these challenges, and provides the underlying theory and evidence for nursing care of children. The Manual provides a definitive guide to clinical skills procedures in children's and young people's nursing, which enables nurses working with children and young people to practice confidently and deliver clinically effective family-centred care.

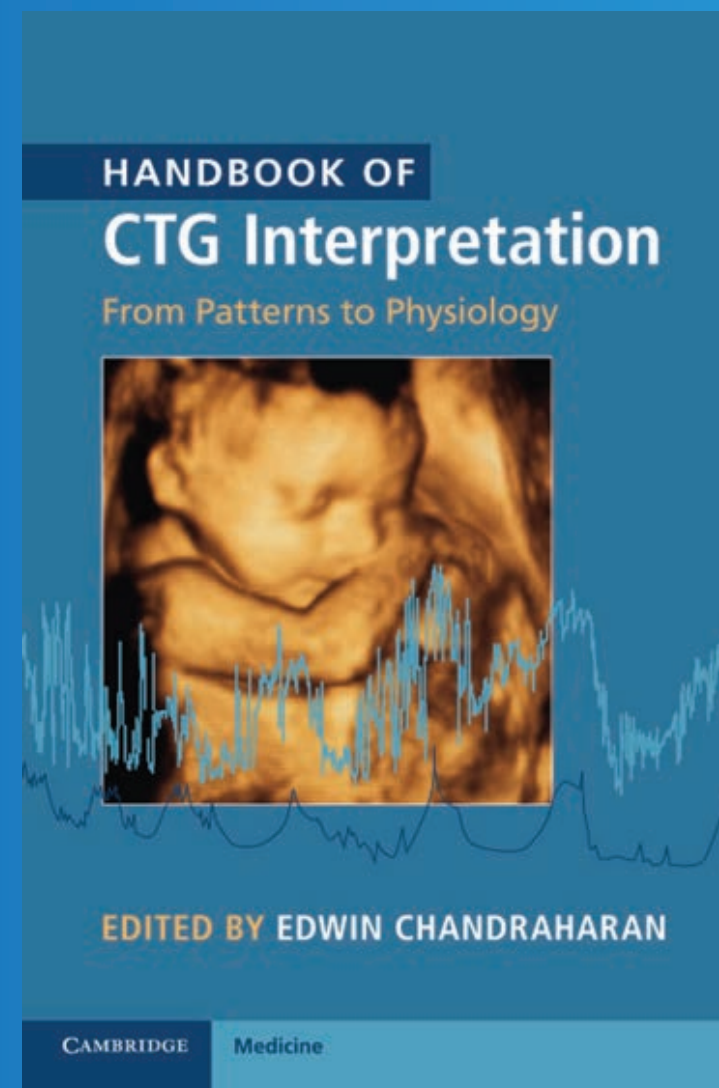

Handbook of CTG Interpretation

Illustrated - 23rd February 2017

Brand Description: Niche Healthcare
Model Number: NH-39028

Chapters are presented in a systematic and accessible format, covering topics such as non-hypoxic causes of fetal brain injury, pre-existing hypoxia, types of intrapartum hypoxia, erroneous monitoring of maternal heart rate, fetal scalp blood sampling and fetal ECG (STAN), intermittent auscultation and medico-legal issues. Sections on 'pearls' and 'pitfalls' highlight good practice and common errors to promote best practice. End-of-chapter exercises allow the reader to engage with the theory and test their knowledge of key areas. This is a highly practical manual aimed at obstetricians and midwives, particularly those undergoing CTG training. The book will also be very useful to midwifery and medical students and to all those involved in multiprofessional intrapartum care.

Bedside Guide for Neonatal Care

Abridged - 30 September 2015

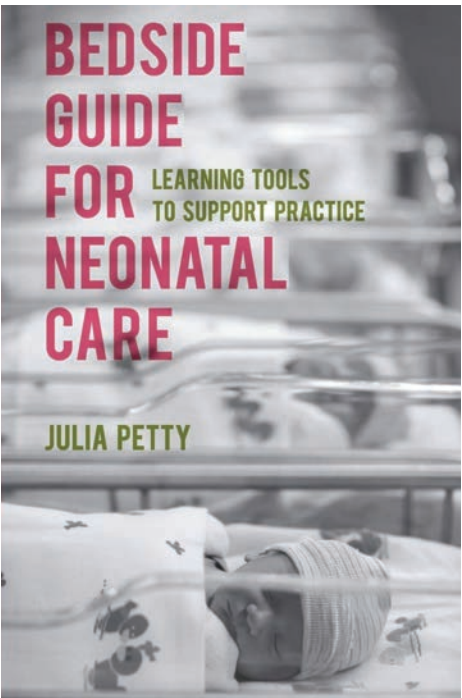

Brand Description: Niche Healthcare
Model Number: NH-32891

Neonatal care is a specialist area that often requires health professionals new to the field to acquire a specific set of skills and knowledge. This means that, even for experienced nurses, there is a need for clear and practical learning resources to ensure care of neonates is safe and accurate.

This book provides health professionals working with neonates with the core information they need to understand and deliver the care practices to neonates and their families in the hospital setting.

Written in an accessible A-Z format, it acts as a bedside guide to the key areas in practice, including Airway and Assessment, Drugs and Developmental Care, Infection, Jaundice, Psycho-emotional care of the family and Umbilical Care. Each practice area explored is supplemented with a range of tools to help guide delivery of the different procedures, including:

- Checklists that provide a clear, bullet pointed list of important practice points for each procedure
- Flow charts which illustrate clearly the different stages of each procedure
- Summary Tables which collate key points in an abridged format about particular practice areas
- Signposts to highlight links between different practice areas throughout the book
- Stop and Think boxes that alert the reader to important practice points and areas of caution
- Standard precautions to flag important infection control reminders
- Local variations to remind the reader to check and make note of local variations and practice points
- A topic-specific Glossary that appears at the end of each key term to provide concise explanations

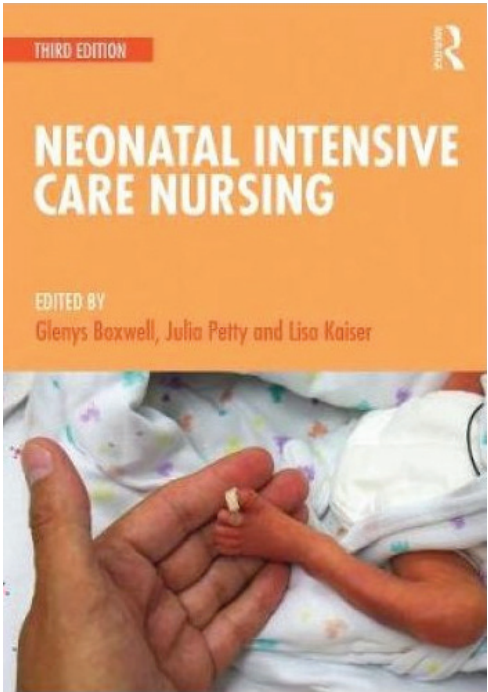

Neonatal Intensive Care Nursing Paperback

Illustrated - 11 Nov. 2019

Brand Description: Niche Healthcare
Model Number: NH-90832

This user-friendly text focuses on the common problems and related care occurring within the neonatal specialty. All previous chapters have been thoroughly updated and new content includes chapters on, for example, organisation of neonatal care, assessment of the neonate, the premature and low birth weight neonate as well as palliative care. In addition, the book now includes a broad and in-depth web-based companion comprising online resources, case studies with answer guides and learning activities. This accessible and interactive approach enables nurses to recognise, rationalise and understand clinical problems using an evidence-based approach. Divided into four parts, the book provides an overview of neonatal care, and a detailed look at the physical and emotional wellbeing of neonate and family, a range of clinical aspects of neonatal care, and key practices and procedures.

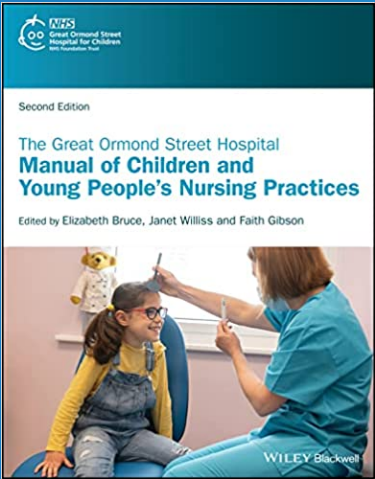

The Great Ormond Street Hospital Manual of Children & Young People's Nursing Practices

Brand Description: Niche Healthcare
Model Number: NH-92301

Clinical skills are essential in the provision of care for children and young people. The Great Ormond Street Hospital Manual of Children and Young People's Nursing Practices provides expert guidance on evidence-based clinical procedures, helping students and newly registered nurses develop sound clinical judgement and confidence. This comprehensive resource covers all aspects of children's nursing, from the fundamentals of everyday practice to advanced care in high dependency and intensive care settings. As such, its relevance and usefulness reach beyond those newly registered; it remains a valuable resource for experienced nurses wishing to further expand their nursing skills.

Now in its second edition, this thoroughly updated guide demonstrates each procedure, explains the underlying theory and evidence, and speaks to the unique challenges of working with children and young people. New chapters address mental health, complementary therapies, learning difficulties, and the deteriorating child, whilst expanded content examines blood glucose monitoring, glucocorticoid treatment, insulin administration, diabetes care, surgical diathermy, non-invasive ventilation, and much more.
