Introduction

Niche Healthcare

Striving towards supplying medically approved products to help you deliver unparalleled neonatal care.

Niche Healthcare is a global provider of medical care solutions. We work with some of the world's trusted brands, such as Phillip, Cardinal Health, and GE Healthcare, to bring you high-quality healthcare products. Our vast array of healthcare solutions has reached medical institutions, maternity clinics, and paediatric wards.

In the UK alone, our supply reaches 85% of the NHS. We continuously provide medical equipment solutions to institutions with more than 347,000 products that fall under 428 categories.

We work towards leveraging and bringing new medical technology to support services for women and children to different healthcare institutions worldwide.

Our products and services cover a wide range of medical departments, including:

- Neonatal units
- Special care baby units
- Birthing centres
- Paediatrics
- Postnatal wards
- NICU
- Labour wards
- High dependency units

Our Goal

We want patients to receive the best care, which is why we extensively work on improving our supply chain and products through continuous clinical trials and innovations. All of these combined can bring new, unparalleled technology to hospitals, empowering you to give your patients the best services available.

We believe that through our healthcare solutions, we can help you prioritise patient care.

How You Help Us Innovate

We work closely with our clients to ensure that we meet each specific need. They discuss their challenges and requirements with us, allowing us to develop ground-breaking medical products.

At Niche Healthcare, we value the relationships that we've built with our stakeholders and clients. Our good relationships with clients, suppliers, and manufacturers have enabled us to come up with a balanced system that helps all parties achieve their goals.

Striving for Innovation in Healthcare Solutions

As new health challenges arise, we make it a point to continuously improve and innovate our products and services. We are constantly working towards developing new technology so that we can provide you with the right medical equipment that will best suit your needs.

Niche Healthcare and Clinical Trials

Clinical trials are crucial to development.

We endeavour to have an in-depth understanding of your needs. We study and test our products meticulously because we believe that these milestones are critical to bringing the best, cutting-edge solutions to our clientele.

Our Commitment

More than being just a provider of healthcare solutions, we are working towards collaborating with organisations, such as UNICEF, WHO, and the UN, to promote sustainability and support environmental development efforts worldwide. Ultimately, we are striving to achieve the ISO 14001.

The Niche Healthcare Neonatal Catalogue

Our neonatal catalogue features a selection of medical products and equipment that are designed for regular use. These products range from small consumables, such as baby head pillows and heel warmers, to high-impact technology devices, like neonate warmers and patient monitors, to help you deliver the best medical care to your patients.

Summary

In conclusion, Niche Healthcare is one of the top global providers of medical care solutions. We continuously work with various medical institutions around the world to ensure that they can provide patients the medical care they need and deserve. We continuously strive to be at the forefront of innovation so we can constantly bring ground-breaking medical and healthcare technology to your doorstep.

Thermal Printers

Print Confident. Print Secure. Print Zebra

Zebra GK420 Advanced Desktop Printer

GK420t (USB/Serial/Parallel)

Part No.: GK42-102220-000

These sleek and compact desktop label printers fit just about any space, budget, or application. Streamline your processes today with these thermal label printers.

Features

- Print speed: up to 5 (127 mm) per second
- Print method: direct thermal/thermal transfer
- EPL and ZPL programming languages standard
- OpenACCESS design for easy media loading
- Quick and easy ribbon loading system
- Dual-wall reinforced plastic construction
- 32-bit RISC processor

The Zebra GK420t thermal transfer printer offers the best value in a basic desktop printer, featuring a fast 5 inches per second print speed to meet your low- to medium-volume printing requirements. The GK420t has a sleek and compact design, boasts the easiest ribbon loading system on the market, and supports a variety of applications and industries.

Zebra ZD421 4" Desktop Printer

Thermal Transfer, Ribbon Cartridge Desktop Label Printer

Part No.: ZD42042-T0EE00Ez

If you need a fast 4-inch printer that is easy to use, easy to deploy and easy to manage, choose the leader of the class — the ZD420.

A new ribbon cartridge and more status icons maximize uptime by making using the printer easier than ever to use. With virtually every modern wired and wireless connectivity option and support for many printer languages, deployment is always fast and easy — just unplug your existing printer, plug in the ZD420 and you're back up and running. Add new connectivity and media handling options whenever you need them, right on site.

Monitor and manage all your ZD420 printers from the cloud, for unsurpassed management simplicity. And our optional Zebra OneCare service will help you maximize the availability and productivity of your ZD420 printers with unmatched from-the-manufacturer support that covers everything — from worn out printheads to normal wear and tear.

The ZD420 — when ease of use, flexibility, and management simplicity matter.

Zebra ZD421 Healthcare Thermal Transfer & Direct Thermal Printer

ZD420 Series

Part No.: ZD41H22-D0E000EZ

In the critical healthcare environment, reliability and accuracy are paramount. Zebra's ZD420-HC printers deliver features and functionality that take deployment and management simplicity, ease-of-use, application flexibility and total cost of ownership (TCO) to a new level in this printer class. Designed for healthcare, this printer is ready for the constant disinfecting and offers a healthcare compliant power supply. Available in both direct thermal and thermal transfer models, the ZD420-HC offers Zebra's easy to use clamshell design combined with an intuitive interface. With optional 300 dpi printing, even the tiniest labels are crisp and legible. ZD420-HC printers run Link-OS® and are supported by our powerful Print DNA suite of applications, utilities and developer tools that deliver a superior printing experience through better performance, simplified remote manageability and easier integration.

Our Focus is You

TLP 2824 Plus Desktop Printer

TT, Serial & USB

Part No.: 282P-101120-000

Boost productivity with fast desktop label printers ideal for making smaller barcode labels. The compact size means these thermal label printers can fit anywhere.

Features

- Print method: Direct thermal (LP)
- Odometer for printer length tracking
- Unicode compliant for multi-language printing
- Reset feature button
- Construction: ABS double-walled casing
- OpenACCESS design for easy media loading
- 32 bit RISC processor for high throughput
- Auto calibration of media
- Head-up sensor
- Zebra Setup Utilities for printer setup and configuration
- Standard tear-off mode
- Certified Microsoft Windows driver

The sleek and compact direct-thermal LP 2824 Plus™ barcode label printer brings powerful performance to applications requiring a space-saving printer and print widths up to 56mm. It includes a 32-bit RISC processor for faster formatting and first-label-out, an auto-sensing serial port, and co-existent EPL™ and ZPL programming languages. Available options include additional memory, 10/100 Ethernet, label dispenser and cutter for receipts, paper or tags.

The LP 2824 Plus is simple to set up with the intuitive Zebra Setup Utilities software. And it is easy to use with an OpenACCESS™ design and clear media window for simple media loading and monitoring, colour-coded user touch points, and a factory reset button.

Zebra ZD510-HC Wristband Printer

USB/ Ethernet/ BTLE

Part No.: ZD51013-D0EE00FZ

Patient wristbands are the foundation for a safer, more efficient process for delivering care. The ZD510-HC wristband printing solution combines the reliable ZD510-HC printer with easy-to-load cartridges containing the only antimicrobial-coated wristbands on the market - Zebra's Z-Band® wristbands.

Offering comprehensive connectivity options, a disinfectant-ready UV-resistant housing and the powerful Print DNA suite of applications, utilities and developer tools, the ZD510-HC increases staff productivity and patient safety.

Also capable of printing wristbands for amusement, water-park and entertainment applications, the ZD510-HC is the industry's easiest to use and most dependable wristband printing solution.

Zebra DS2208-HC Handheld Imager

USB Kit, Scanner, Healthcare White, & Shielded USB Cable

Part No.: DS2208-HCBU2100AZR

Whether your healthcare workers are admitting a patient, administering medication, collecting a specimen or performing inventory and dietary management, there's no room for error. Now you can give your staff the power to get it all done right with the DS2200 series for healthcare. Unlike general purpose scanners, the DS2200-HC series can withstand the constant disinfecting required at the point-of-care.

It easily and accurately captures the many kinds of barcodes commonly used in hospitals - from barcodes on patient wristbands and medication vials to IV bags and specimen trays. You get a purpose-built healthcare scanner that fits your budget - without compromising on performance or features.

Corded and cordless models meet your scanning needs from the patient bedside to the pharmacy, admitting and more. The DS2200 series for healthcare—the affordable and dependable scanning you need to improve patient safety and staff productivity.

ZEBRA ZT400 SERIES

105910-150 Zebra Platen Kit, Thermal Transfer, TLP2824 Plus

Part No.: 105910-150

The ZD230 is available as a direct thermal or thermal transfer printer. In both variants, it creates 1D and 2D barcodes such as PDF417, DataMatrix, QR Codes and Aztec fast and reliably. It prints up to 152 mm/sec. fast with a print resolution of 203 dpi – for printing labels and receipts up to tickets, tags and ID cards. In addition to this, it also has a capacity of 300 meter long ribbon rolls to save time, especially between media changes.

Thanks to the large memory of 256 MB flash and 128 MB SDRAM, the ZD230 stores significantly more fonts and graphics. A simple installation and the immediate readiness will be insured by the multi-interface of the desktop printer: USB, Ethernet and Bluetooth. Moreover, the desktop printer also offers Wi-Fi for a wireless connection via the network.

The ZD230 is easy and uncomplicated to operate via an LED display and a single button for feed and pause. The printing status can also be seen at a glance. The printer is optionally available with an integrated peeler or cutter – this saves time during labelling. The ZD230 is supported by selected software applications of the Zebra Print DNA and Zebra's Link-OS to provide a cost-effective and reliable printing experience. OneCare SV ensures, among other things, that the printer's standard warranty is extended to 24 months. Together they make the ZD230 a future-proof investment.

CS60-HC Series Healthcare Companion Scanner

Area Imager, Healthcare, HC White, Vibration Motor

Part No.: CS6080-HC4F00BVZWW

The ultra-versatile CS60-HC Series Companion Scanner adapts to any workflow. Its groundbreaking design easily converts between corded and cordless operation, handheld and hands-free, as your needs change.

As a cordless scanner paired to a cart-mounted cradle, mobile device or in-room workstation, the CS60-HC is small enough to accommodate any nurse-carry workflow and offers the latest mobile technology including contactless charging, 18 hours of battery power, a dedicated battery gauge and versatile charging options.

As a corded scanner, the CS60-HC offers compact handheld or hands-free scanning for the pharmacy counter, lab station and more. Whether you purchase a corded or cordless model up front, you can change modes at any time for superior investment protection. Simply swap the battery and corded USB converter and the CS60-HC is ready for a new workflow.

Special plastics, IP65 sealing and seamless crevice-free construction allow for safe wipe-downs with the widest selection of aggressive disinfectants used in today's hospitals. With a high-resolution megapixel sensor and Zebra's exclusive PRZM Intelligent Imaging technology, the CS60-HC easily and accurately captures the many kinds of barcodes commonly used in hospitals including barcodes on patient wristbands, medication vials, IV bags and specimen trays. A second programmable button lets users seamlessly toggle between two host applications. And Zebra's unrivaled tools make staging and everyday management easier than ever.

Zebra ZT421 6 inch Industrial Label Printer

ZT400 Series

Part No.: ZT42162-T0E0000Z

Keep critical operations moving with Zebra's durable ZT400 Series printers constructed with an all-metal frame.

Featuring advanced technology — including a large colour touch display and versatile connectivity options — these printers take performance to a new level and are adaptable for your evolving needs.

Intuitive to integrate and operate, they feature Zebra's Print DNA software powered by Link-OS to deliver unparalleled intelligence and innovation for exceptional performance and simplified remote manageability.

Easily replace legacy printers using ZPL, EPL or non-Zebra command languages. Available in two print resolutions, and a 6" print width, the ZT421 is ideal for a wide range of applications.

Purchase what you need today and add new features onsite tomorrow with field-installable options such as media handling and an RFID encoder. Standard connectivity includes Serial; Ethernet; USB; Dual USB Host and Bluetooth 4.1. Add optional dual-band 802.11ac Wi-Fi / Bluetooth 4.1 and Bluetooth for fast, reliable connections.

Two open media slots let you add parallel and more.

ZD230 4-Inch Value Desktop Printer

DT, 203dpi, USB, 802.11ac Wi-Fi, Bluetooth 4 ROW

Part No.: ZD23042-D0ED02EZ

Don't sacrifice quality for affordability. Zebra's ZD200 Series desktop printers give you more.

Zebra-quality engineering, reliable operation and basic features at an affordable price—both at the point of purchase and across the entire lifecycle.

These printers boast dual-wall construction and all-metal printheads — components not often found in a basic printer.

With an industry best out-of-box experience, they are simple to install and begin printing.

Key features include USB connectivity for universal interoperability, along with a single LED status indicator and single button for feed / pause for easy operation.

Backed by Zebra's trusted network of more than 10,000 partners, support is available anywhere around the globe and, they're ENERGY STAR® qualified to reduce operational expenses.

Built to last for years, ZD200 series printers provide an outstanding return on investment.

ZQ610 Healthcare Mobile Printer

2" Print Width Mobile Healthcare Label Printer

Part No.: ZQ61-HUFAE00-00

If you're looking for a premium mobile printer to improve staff productivity, specimen labeling accuracy and patient safety, the ZQ600 Healthcare Series printers deliver. Available as the ZQ610 (2" printer width, or ZQ620 (3" print width).

The ZQ600 takes Zebra's popular QLn platform and makes it even better — adding advanced technology and innovative design that drive productivity, ease-of-use and manageability to a new level.

Designed specifically for healthcare, these compact printers are built to withstand constant disinfecting. The colour display takes all the guesswork out of printer status. Class-leading patented battery technology ensures healthcare staff will have plenty of power, every minute of every shift, and the ZQ600 series offers the latest Wi-Fi and Bluetooth connections for fast, reliable and secure printing.

Superior remote management capabilities — including an Ethernet cradle — simplify every aspect of management, from setup and firmware upgrades to issue resolution.

The ZQ600 series runs Link-OS and is supported by our powerful Print DNA suite of applications, utilities and developer tools that give our printers better performance, simplified remote manageability, and easier integration and our optional Zebra OneCare service will help you maximize the availability and productivity of your ZQ600 printers with unmatched from-the-manufacturer support. The ZQ600 Healthcare Series — boost staff productivity and specimen labeling accuracy with the next evolution in mobile printing.

Our Focus is You

Zebra TC26

WWAN, GMS, Front / Rear Camera, No Connector, No Scanner

Part No.: TC26BK-11D221-A6

Give all your clinical and non-clinical healthcare workers the tools they need to work together to deliver the highest quality patient care with the affordable TC21-HC and TC26-HC mobile computers.

These small, easy-to-carry devices are big on features, offering the very latest in advanced mobile technologies, removable batteries for dependable around-the-clock operations and the power to run all the applications you use today and tomorrow, designed with healthcare grade materials built to take constant disinfecting.

TC52X-HC Series Mobile Computers

Touch Computer

Part No.: TC520K-1HCMH6P-A6

The TC52x-HC Touch Computer builds on the highly successful TC52-HC, adding powerful new features that improve patient outcomes by improving workflows for healthcare workers.

The best-in-class blazing 2.45 GHz processor and new UFS memory provide plenty of power to run all of your voice and data applications — simultaneously. See more and scroll less with a full HD display.

A hot-swappable battery keeps healthcare workers up and running, every minute of every shift. Design improvements make the audio grills virtually clogproof. A red alert button can be configured to call the security desk or launch an application in emergency or duress situations. Camera improvements enable the reliable capture of high quality photos — even in low light conditions.

A new scanner takes performance to a new high, complete with healthcare safe illumination LEDs and aimer colours and with FIPS 140-2 and TAA certification, the TC52x-HC is ideal for all hospitals, including government facilities. Give your healthcare workers the features they need to deliver the ultimate quality of care with the TC52x-HC, only from Zebra.

Our Focus is You

TC21-HC - Healthcare

WLAN, GMS, No Scanner, NFC, 3GB / 32GB

Part No.: TC210K-0HD224-A6

With the affordable Wi-Fi-only TC21-HC and Wi-Fi / cellular TC26-HC mobile computers, you can give all your clinical and non-clinical healthcare workers the tools they need to deliver the highest quality patient care by improving efficiency and task accuracy for nurses, home healthcare caregivers and the many crucial workers in environmental services, facilities and materials management, patient transport, hospital food service and more. As part of Zebra's ultimate series, these small, easy-to-carry devices are big on features. The latest in advanced mobile technologies provides superior future proofing and the power to run all the applications you use today and tomorrow. The durable design and removable batteries deliver the dependable around-the-clock operation that is crucial in healthcare. The housing is specially built for constant disinfecting to prevent the spread of germs. Zebra's leading voice solutions turn these devices into a two-way radio and a mobile PBX handset. And Zebra-only Mobility DNA simplifies every aspect of the devices from ease-of-use to integration, security and manageability.

DS8100-HC SERIES 1D / 2D Handheld Imagers

Healthcare, FIPS, Scanner only

Part No.: DS8178-HCmF00BVMWW

The DS8100 Series for Healthcare provides the tools clinicians need to improve patient outcomes and streamline workflows, resulting in increased productivity.

The DS8100-HC premium handheld scanner is purpose-built for healthcare environments, with unparalleled performance on virtually every barcode in any condition. Only the DS8100-HC series offers a purpose-built housing specially designed to help prevent the spread of bacteria. Special plastics allow for safe wipe-downs with the widest selection of the harshest and most aggressive disinfectants used in today hospitals and the smooth, easy-to-clean shape with concealed screws, speaker holes and seams helps eliminate areas where bacteria could hide, even after wipedowns.

ZEBRA ZD220

Entry-level printer for a wide variety of printing

The ZD220 is available as both a direct thermal and thermal transfer printer. In both variants, it creates 1D and 2D barcodes quickly and reliably. Thus, it is optimally suited for the diverse printing of labels and receipts, up to tickets, tags and ID cards. It quickly prints at up to 102 mm/sec. with a print resolution of 203 dpi.

The large memory of 256 MB flash and 128 MB SDRAM of the ZD220 allows you to store significantly more fonts, graphics and pre-defined labels. Thanks to USB, the ZD220 is easy to install and immediately ready to use. Handling of the ZD220 is also very simple: it is operated via an LED display and a single button for feed and pause. You also see the print status at a glance. Optionally, the ZD220 is available with an integrated peeler – which saves time during labelling.

The ZD220 is supported by selected software applications from Zebra Print DNA, based on Zebra's Link-OS Basic and optional Zebra service contracts, such as OneCare SV. Together, the applications ensure a cost-effective and reliable printing experience.

DS8108 Healthcare

USB Kit, Area Imager, Vibration Motor

Part No.: DS8178-HCmF00BVMWW

As a healthcare provider, you need to deliver the very best in care, every second of every day.

That means giving your healthcare professionals the tools they need to improve patient outcomes, increase productivity and streamline everyday processes. With the purpose-built DS8100-HC, you can.

With the ability to instantly capture the most difficult to read barcodes; an industry-first housing that offers maximum protection against the spread of bacteria; Night Mode with Vibrate for can't miss feedback on decodes and a built-in lamp, the DS8100-HC can seamlessly integrate into existing healthcare workflows to boost process efficiencies and ensure that patients are left undisturbed until necessary.

Combined with Zebra's complimentary manageability tools to simplify the setup, deployment, performance monitoring and ongoing management of your scanners, the DS8100-HC is the ideal solution to enhance patient safety, the productivity of staff members and the efficiency of point-of-care operations.

Zebra CS4070-HC

Companion Scanner

Part No.: BT-CS1-OBR0U21

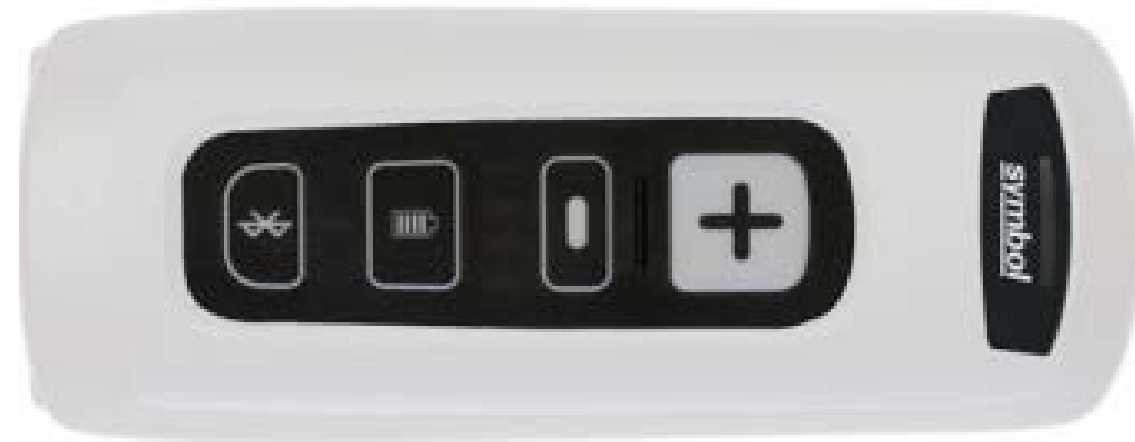

Barcode scanning at patient bedside is crucial in preventing deadly errors in medication administration and specimen collection.

Now, you can put wireless enterprise-class barcode capture in the hands of every nurse and lab technician with the disinfectant-ready CS4070-HC.

Small enough to be carried at all times, it can be tucked in a pocket or worn on a lanyard.

One press of the dedicated pairing button instantly connects the CS4070-HC to Bluetooth-enabled in-room computers, workstations-on-wheels (WOWs), tablets and more.

With superior scanning technology, healthcare workers can instant capture virtually any barcode, in any condition 1D or 2D, electronic or printed.

ET40 / ET45 ENTERPRISE TABLETS

Wi-Fi Only Android Rugged Tablet

Part No.: ET40AA-001C1B0-A6

The ET40 and ET45 are built for business from the inside out, delivering reliable operation you can count on. Drop it on tile or concrete floors. Use it inside and outside, even in the heat or subzero temperatures. Hose it off. It still works. And if you work in more demanding environments, no problem — just add the optional rugged boot for even more durability.

Get the fastest Wi-Fi and cellular speeds with Wi-Fi 6 and 5G. The Wi-Fi only ET40 is ideal indoors in retail and hospitality, while the Wi-Fi and cellular ET45 is ideal for delivery drivers and more out in the field. Connect cordless headsets, printers and more with Bluetooth to create a complete wireless solution.

Power options keep your tablets up and running over multiple shifts, while Zebra's PowerPrecision batteries provide the intelligence to better manage your battery pool. Get constant power with an optional hot-swappable secondary battery, ideal for multiple shifts.

No matter what type of scanning your workers do, there's a Zebra scan engine that's right for the job — from standard range scanning to a large 'sweet spot' for dependable point-and-shoot' simplicity or an advanced range scanner to capture items in hand and across the room and all scanners deliver the performance that has made Zebra the market leader — split-second first time capture of virtually every barcode, in practically any condition.

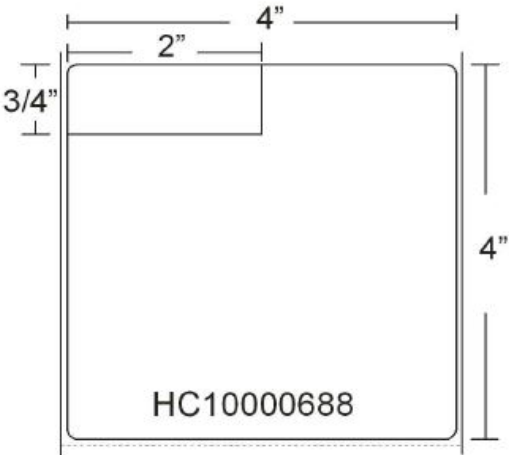

Healthcare Labels

8000T Primary Blood Bag Label
